STATE OF ALASKA DEPARTMENT OF TRANSPORTATION AND PUBLIC FACILITIES **Policy and Procedure**		POLICY AND PROCEDURE NUMBER **07.06.030**	PAGE 1 of 1
		EFFECTIVE DATE July 29, 2005	
SUBJECT **Rural Airport Wind Indicator Devices**		SUPERSEDES New	DATED
CHAPTER **Maintenance and Operations**	SECTION **State Operated Rural Airports**	APPROVED BY Mike Barton 8/10/5	

PURPOSE

This formalizes the policy and procedure of the department regarding maintenance of runway wind indicator devices at noncertificated rural airports in Alaska.

POLICY

The department will maintain each wind indicator device and segmented circle at each airport as installed and shown on the approved airport layout plan. All devices must be maintained, even if there are more than the required number.

PROCEDURE

The sock of each windsock will be replaced at least annually. It can be replaced more often if in the opinion of the airport manager the fabric has degraded and needs to be replaced. Rotating parts of the windsock that need lubrication will be lubricated annually. Painted surfaces will be repainted every five years at a minimum. Reflectorized surfaces will be replaced when the color fades to the point of not being serviceable.

AUTHORITY

AS 02.10.010, AS 02.15.020, AS 02.15.160

IMPLEMENTATION RESPONSIBILITY

Regional directors

DISTRIBUTION

All state employees via the DOT&PF website
