GOLDHILL ROAD

BICYCLE AND PEDESTRIAN FACILITIES

navigator northern

STATE of ALASKA DEPARTMENT of TRANSPORTATION & PUBLIC FACILITIES

The Alaska Department of Transportation is working to widen the shoulders on Goldhill Road to accommodate bicycles and pedestrians. Improvements will also include resurfacing the roadway, approach work, signing and striping. We will do our best to keep you informed as work progresses and appreciate your patience and cooperation during construction. This project is expected to be complete by mid-September 2016.

Planned Project Details:

- Work is expected to start in late June or early July.
- Expect LANE CLOSURES, flagging operations and PILOT CAR operations during working hours. Work will occur between 8 a.m. and 10 p.m.
- Upon completion, Goldhill Road will be repaved with new signage installed, and the paved road surface will be widened to 30 feet. This will provide 4-foot shoulders for pedestrians and cyclists. New, paved approaches with culverts will be constructed to properties along the road.
- If you would like to receive email updates about this and other Fairbanks/North Pole projects, please email **FairbanksConstruction@alaskanavigator.org.**
