**Ted Stevens Anchorage International Airport Awarded**  
**Air Cargo Excellence Award**

FOR IMMEDIATE RELEASE: April 2, 2007

(Anchorage)— The Ted Stevens Anchorage International Airport has been awarded the 2007 Air Cargo Award of Excellence for the airport category of 1,000,000 or more tons by Air Cargo World.

The Air Cargo Excellence survey is a result of quantitative feedback from Anchorage's cargo customer base of airlines and airfreight forwarders who ship to or through Anchorage. The award is earned by achieving superior ratings from customers in 4 key areas of measurement: Performance, Value, Facilities and Regulatory Operations.

Airport Director Morton V. Plumb Jr. is extremely pleased that the Airport has been recognized again for excellence in service having previously won this award in 2005. "This is a testament to our professional, dedicated team and the facilities here at Anchorage," said Plumb. "And it confirms our competitive advantage when rated higher than airports like Louisville, Memphis, New York, Miami and Chicago."

Air Cargo World is an industry trade magazine focusing on the airline cargo industry. For more information regarding this distinction contact Air Cargo World Publisher, Steve Prince at 770-642-9170 or visit
