

Alaska Health Fair Low Cost Blood Tests

Free Health Education & Screenings

Ted Stevens Anchorage International Airport South Terminal - Baggage Claim Atrium Wednesday, September 30

7:30am—11:00am

You need to FAST for 12 hours prior to the Comprehensive Blood Test.

This means NO food or drink EXCEPT WATER!

Drink plenty of water to avoid dehydration

All prescription medication should be taken and diabetics should not fast.

Blood test for adults 18 and over.

COMPREHENSIVE BLOOD TEST - \$40

This Chemistry/Hematology Profile has 27 tests, including:

- · Cholesterol Panel
- Blood Count
- · Glucose for Diabetes
- Anemia
- Kidney Function
- And Others

VITAMIN D BLOOD TEST - \$50

Vitamin D is essential in calcium absorption, neuromuscular & immune functions.

TEST SCREENING - \$30 Suggested for people who:

THYROID BLOOD

- Have been recommended by their healthcare practitioner
- Are women over the age of 45, or younger as a baseline test
- Have a family history of thyroid problems
- Are monitoring a thyroid problem
- Have symptoms of fatigue, unexplained weight change and/or a swollen thyroid

PROSTATE BLOOD TEST SCREENING - \$25

Recommended for men over 50, or younger if you have a family history of prostate disease.

Colocare Kits - \$5

ColoCare Kits are an easy to use, effective, screening test for blood in one's stool, which may indicate the first sign of bleeding from a polyp or cancer.
