

### PROJECT OVERVIEW

---

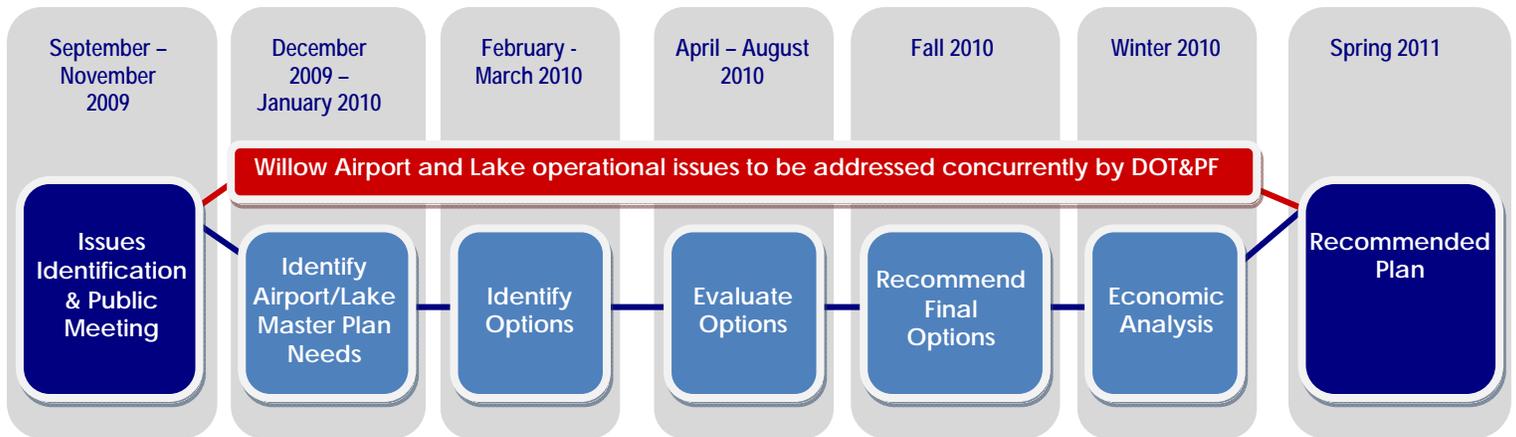

The State of Alaska Department of Transportation & Public Facilities (DOT&PF) has contracted with DOWL HKM to complete Phase 1 of a Willow Airport Master Plan. Some of the questions to be discussed in the master plan include:

- What are the issues associated with community, airport, and highway growth?
- How is aviation demand expected to change at Willow Airport?
- Is airport property in excess of future aviation needs?
- What options are available to address non-aviation facilities and activities?

An active public outreach program will make sure that you stay involved and are informed as the project progresses. The first Public Meeting is tentatively planned for winter 2009. A notice with the specific date, time, and location will be sent out closer to the meeting date.

### PROPOSED SCHEDULE
