

Fairbanks Airport Float pond Survey

FSWCD staff (Aditi Shenoy and William Wilkins) along with David Cummings (Airport Operations Officer) and Ron Dearborn (General Aviation Association) surveyed the Fairbanks airport float pond on July 8th 2015. 16 points along the perimeter of the float pond were surveyed, 7 of which were on the west shore, and 9 on the east shore of the pond. Four rake throws were conducted at each sampling point. Elodea was not found at any of the sampling locations. The floatpond was densely vegetated with other aquatic plants including *Myriophyllum spp.* and *Potomageton spp.*

Coordinates of sampling points

#	Latitude	Longitude
1	64.82743	-147.83594
2	64.82652	-147.83755
3	64.82541	-147.83911
4	64.82239	-147.84474
5	64.82189	-147.84605
6	64.82109	-147.84753
7	64.81606	-147.85651
8	64.81522	-147.85423
9	64.81598	-147.85129
10	64.81780	-147.84792
