

STEESE EXPRESSWAY / JOHANSEN EXPRESSWAY INTERCHANGE

PROJECT NO. Z607320000/0002337

Alternative E - Farmers Loop Connection

Key Improvements

- ◆ Adds a direct connection from the Old Steese/Johansen intersection to the Farmers Loop Extension.

Considerations

- ◆ Not a standalone alternative. Because only a small number of vehicles are diverted from the Steese to the proposed new route, one of the other alternatives would have to be constructed in addition to this alternative.
- ◆ This route could be used to bypass the Steese when a crash closes the highway.
- ◆ This route could replace the existing secondary route (City Lights Boulevard), which is proposed to close under all the alternatives.
