The University Avenue Rehabilitation project will reconstruct all of University from Thomas Street (near College Road) to the Mitchell Expressway. This project will include at least five years of construction along the corridor. Below is an estimated timeline for when each piece of the project will be constructed.

- **2018**
  - Begin work on Chena River Bridge.
  - Reconstruct intersection at Geist, Johansen, and University by widening, adding turn lanes, and constructing medians.
  - Widen University from Thomas Street to Wolf Run.
- **2019**
  - Relocate utilities between Geist and Airport Way.
  - Reconstruct intersection at Airport Way and University Avenue.
  - Begin work on Chena River Bridge.
- **2020**
  - Finish replacement of Chena River Bridge.
  - Relocate Indiana Avenue and complete work on Halvorson Road.
  - Widen University from Wolf Run to Geraghty.
- **2021**
  - Widen and repave University Avenue from Rewak to the Mitchell Expressway.
  - Reconstruction Geraghty Avenue.
- **2022**
  - Complete work on Halvorson Road.
