

**YANKOVICH-MILLER HILL ROAD RECONSTRUCTION AND MULTI-USE PATH  
PROJECT NO. NFWY00139/0002(378) UPDATES**

**PURPOSE & NEED**

Yankovich Road and Miller Hill Road serve vehicular and pedestrian traffic between Sheep Creek Road and Ballaine Road. Yankovich Road is a 1.67-mile east-west corridor with residences and some public points of interest such as the Large Animal Research Station (LARS). Miller Hill Road is a 0.71-mile north-south roadway that connects Sheep Creek Road on the south and Yankovich Road on the north with a separated bike path along the east side. The two roads are similar in character with narrow 10-foot lanes for vehicular traffic and 0- to 2-foot shoulders for other users. To improve safety for pedestrian, bicycle and vehicle traffic on Yankovich Road and Miller Hill Road, the Alaska Department of Transportation & Public Facilities (DOT&PF) proposes to:

- Upgrade/widen Yankovich Road to 32 feet (10-foot lanes and 6-foot shoulders);
- Reconstruct Miller Hill Road by widening the existing roadway surface toward the separated path to 30 feet (10-foot lanes and 5-foot shoulders);
- Pave the remaining portion of the Miller Hill Road separated path;
- Improve sight distance and road geometry at roadway and driveway intersections;
- Improve drainage; and
- Raise or lower Yankovich Road to eliminate blind spots.

The project schedule is outlined below.

**PROJECT SCHEDULE**

<b>COMPLETED TASKS</b> (as of Jun 2020)	<b>DATE</b>
Environmental Document	May 2018
Design Study Report	Jun 2020
<b>FUTURE TASKS</b> (as of Jun 2020)	<b>DATE</b>
Detailed Design Work	Ongoing
Local Planning Approval	Oct 2020
Right of Way Acquisition	Aug 2020 to Dec 2021
Utility Relocation Agreements	Oct 2020 to Dec 2021
Project Bidding	Mar 2022
Construction	May 2022
