Old Harbor City Dock

Owner: City of Old Harbor
Contact: Rick Berns, Mayor – 907-286-2204

Terminal Description: A new multi-use dock facility was recently constructed by the City of Old Harbor on Kodiak Island (50 miles southwest of City of Kodiak). The M/V Tustumena provided ferry service on four occasions in 2012. The frequency of future scheduled service is unknown as Old Harbor is out of the way of the normal route that the ferry takes from Kodiak to Chignik. The facility consists of a 55'x102' pile-supported dock with 3 fender panels, 3 mooring dolphins with access to the dock by steel catwalks, and an 18'x 280' pile-supported approach trestle connected to shore. The dock was built in 2012 to replace the aging timber freight dock. This is a multi-purpose facility utilized by other vessels. AMHS is not in control of operation or maintenance of this facility. The most recent annual passenger and vehicle traffic at Old Harbor is shown below.

The most recent above water survey was completed on August 20, 2014. The underwater survey occurred on July 11, 2014. The most recent fracture critical inspection occurred on September 12, 2014.

Vessels	
Name	Berthing, Alignment
Tustumena	Port

Tidal Data (MLLW=0.0 feet)	
Highest Observed	11
