UNALASKA AIRPORT MASTER PLAN UPDATE

We want to hear from you!

The Alaska Department of Transportation and Public Facilities (DOT&PF) is updating the 2008 Unalaska Airport Master Plan to explore and document a plan for future air service capabilities essential to the Community of Unalaska.

The airport offers critical infrastructure used by commercial fishing, residents, health services, and others. Future improvements to the airport can help support air carriers in providing frequent and safe air service.

DOT&PF is seeking public feedback on issues relating to the airport plan update.

There are a number of ways to participate in the Unalaska Airport Master Plan. The public comment period is open **October 21 – November 18, 2020**.
