

5/09 ASSAC Changes from 2006 standard specification

Section **10-03 Definitions**. Revised definitions for Acceptance Sampling and Testing, Independent Assurance (IA), Process Control, Quality Assurance (QA), Quality Assurance Specifications, Quality Control (QC), and Verification Sampling and Testing.

Section **30-05 Performance and Payment Bonds**. Adds language clarifying the requirements for Performance and Payment Bonds.

Section **60-03 Testing and Acceptance**. Adds requirement for acceptance testing sampling process. For material acceptance tests, sampling must be witnessed by the department and possession of the sample must be transferred to department personnel.

Section **60-08 Submittal Procedure**. Adds language for re-submittal. The department will review re-submittals within 30 days after they are received.

Section **70-13 Responsibility for Damage Claims**. Revises requirement for contractor to indemnify and hold harmless the state. The revised language matches the highway specification.

Section **80-01 Subletting of Contract**. Revises process for confirming required contract language for subcontracts. Contractor is required to submit self-certification on Form 25D-042, for subcontractors and lower tier subcontractors, and provide subcontracts on written request.

Section **G-131-2.1 Provide the specified number of the following vehicle types**. Adds language requiring the department to providing third-party liability insurance for department use of contractor supplied vehicles.

Section **108-3.4 Installation in Trenches**. Minor change to correct typographical error.

Section **108-3.8 Splicing**. Minor change to correct typographical error.

Section **109-2.31 Panel Boards**. Minor change to correct typographical error.

Section **620-3.5 Application**. Revises Table 1. Changes paint and glass bead application rates.
