

**SECTION 730  
SIGN MATERIALS**

**730-2.05 FLEXIBLE DELINEATOR POSTS.** *DELETE this subsection in its entirety and REPLACE with the following:* Durable fiberglass composite, polymer, or plastic material meeting the dimensions and colors shown on the Plans. Resistant to ultraviolet light, ozone and hydrocarbon damage and remain flexible at a temperature of minus 40 °F. Provide posts with reflectors that are capable of self-erecting and remaining serviceable after 5 head-on impacts at 55 mph and 10 impacts at 35 mph with an automobile at an air temperature of plus 40 °F.
