Project Description

Section 47105 (d) of the Federal Aviation Reauthorization Act of 1996, as amended (herein called the Act), authorizes the Secretary to require certification from sponsors that they will comply with statutory and administrative requirements. The following list of certified items includes major requirements for this aspect of project implementation. However, the list is not comprehensive, nor does it relieve sponsors from fully complying with all applicable statutory and administrative standards. Every certified item must be marked. Each certified item with a "no" response must be fully explained in an attachment to this certification. If the item is not applicable to this project, mark the item "N/A". General AIP standards are described in Advisory Circulars 150/5100-6, 150/5100-15, and 150/5100-16. A list of current advisory circulars with specific standards for design or construction of airports and procurement or installation of airport equipment and facilities is referenced in the Grant Assurances.

1. The plans and specifications (were/will be) developed in accordance with all applicable Federal standards and requirements, and no deviation from or modification to standards set forth in the advisory circulars (was/will be) necessary other than those previously approved by FAA.  Yes  
 No  
 N/A
  
2. Specifications for the procurement of equipment (are not/will not be) proprietary or written so as to restrict competition. At least two manufacturers can meet the specification.  Yes  
 No  
 N/A
  
3. The development (included/to be included) on the plans is depicted on an Airport Layout Plan approved by FAA.  Yes  
 No  
 N/A
  
4. Development shown in the plans and specifications, which is ineligible for AIP funding, (has not been/will not be) included in the grant application for this project. No reimbursement will be requested for this ineligible work.  Yes  
 No  
 N/A
  
5. Process control and acceptance tests required for the project by standards contained in Advisory Circular 150/5370-10, or previously approved by FAA, (are/will be) included in the project specifications.  Yes  
 No  
 N/A
  
6. If a value engineering clause is incorporated into the contract, concurrence (was/will be) obtained from FAA.  Yes  
 No  
 N/A

- 7. The plans and specifications (incorporate/will incorporate) applicable requirements and recommendations set forth in the Federally approved environmental finding.  Yes  
 No  
 N/A
  
- 8. For construction activities within or near aircraft operational areas, the requirements contained in Advisory Circular 150/5370-2 (have been/will be) discussed with FAA and incorporated into the specifications. A safety/phasing plan (has been/will be) prepared, and FAA concurrence (has been/will be) obtained, if required.  Yes  
 No  
 N/A
  
- 9. The project (was/will be) physically completed without Federal participation in costs due to errors or omissions in the plans and specifications which were foreseeable at the time of project design.  Yes  
 No  
 N/A

I certify that, for the project identified herein, the responses to the foregoing items are correct as marked, and that the attachments, if any, are correct and complete.
