### MEMORANDUM

### State of Alaska

Department of Transportation & Public Facilities Division of Program Development

TO: Marc Luiken

Commissioner

**DATE**: April 9, 2018

THRU: Mike Vigue, Director

Program Development

**PHONE NO: 465-4070** 

**FAX NUMBER**: 465-6984

FROM: Maren Brantner STIP Manager

**SUBJECT**: Recommend Approval of

FMATS TIP Admin Mod 4

The FMATS Policy Committee approved Administrative Modification #4 to the FMATS 2017-2020 Transportation Improvement (TIP) on March 23, 2018.

In accordance with the agreement between FMATS and Alaska DOT&PF, the Fairbanks MPO coordinator and FMATS Policy Committee has determined Administrative Modification #4 to the FMATS 2017-2020 TIP has met all the requirements of US Code Title 23, Section 134 and is fiscally constrained by the allocations made in the 2016-2019 STIP and the Draft 2018-2021 Statewide Transportation Improvement Program (STIP). An administrative modification does not require a new conformity determination per 23 CFR 405.104.

Your approval of Administrative Modification #4 to the FMATS 2017-2020 TIP is recommended and required as the statutory designee for all state transportation planning matters.

Approved: Marc Luiken, Commissioner

Date: 17 Apr 2018

Alaska Department of Transportation & Public Facilities Mr. Ryan Anderson, P.E. 2301 Peger Road Fairbanks, Alaska 99709

RE: Transmittal of FMATS 2017 - 2020 TIP Administrative Modification #4 Revision

Mr. Anderson,

Attached for approval and inclusion in the Statewide Transportation Improvement Program (STIP) is the Fairbanks Metropolitan Area Transportation System (FMATS) 2017 - 2020 Transportation Improvement Program (TIP) Administrative Modification #4. The FMATS Policy Board approved this document on March 21, 2018.

Once the Commissioner's approval is received, please incorporate TIP Administrative Modification #4 into the STIP, as required under 23 U.S.C. 135. Your prompt attention to this task would be greatly appreciated by FMATS. If you have any questions, please contact Jackson Fox, FMATS Executive Director, at 459-6786 or email <u>Jackson.fox@fmats.us</u>.

Sincerely,

Jackson Fox

### Policy Board Action Items 3.21.18

**Motion:** To adopt the "FMATS Transition To 501(c)(3)" as presented. (Cleworth/Lawrence). None opposed. Approved.

**Motion:** To approve TIP Administrative Modification #4 as presented. (Kassel/Lawrence). None opposed. Approved.

**Motion:** To support the State's Performance Targets for pavement and bridge condition. (Lawrence/Cleworth). None opposed. Approved.

**Motion:** To support the reallocation of unspent CMAQ funds from the Rideshare Program to purchase four new VanTran vehicles. (Kassel/Lawrence). None opposed. Approved.

Mayor Bryce Ward

Chair

FMATS 2017 - 2020 TRANSPORTATION IMPROVEMENT PROGRAM (TIP) ADMINISTRATIVE MODIFICATION #4

This is the FMATS 2017 - 2020 Fairbanks Metropolitan Area Transportation System (FMATS) TIP Administrative Modification #4. This TIP was established to remedy the cost increase for the Noble Street Upgrade. Funding was relocated between three other projects to accommodate the request for the Noble Street project increase.

The 2017 – 2020 TIP was reviewed at the March 7, 2018 Technical Committee meeting and approved by the Policy Board on March 212, 2018. The TIP continues to be fiscally constrained. A conformity determination is not required for Administrative Modifications.

This TIP was developed in conformance with 23 USC 134, 49 USC 5303, 23 CFR Part 450, sections 174 and 176 (c) and (d) of the Clean Air Act as amended (42 USC 7504, 7506 (c) and (d)), 40 CFR Part 93, Title VI of the Civil Rights Act as amended (42 2000d-1) and 49 CFR Part 21, 49 USC 5332, Section 1101(b) of the SAFETEA-LU (Pub. L 109-59 and 49 CFR part 26, 23 CFR part 230, provisions of the Americans with Disabilities Act of 1990 (42 USC 12101 *et seq.,)* 49 CFR parts 27, 37, and 38, the Older Americans Act as amended (42 USC 6101), 23 USC 324, Section 504 of the Rehabilitation Act of 1973 (29 USC 794) and 49 CFR 27 and all other applicable federal requirements for Metropolitan Planning Organizations.

# **Approved 3.21.18**

#### ACRONMYMS AND DEFINITIONS

#### **General Definitions**

AC – Advance Construction

ACC – Advance Construction Conversion

BANK - Banking

AMATS – Anchorage Metropolitan Area Transportation Solutions

*CMs* – Contingency Measures

*EPA* – Environmental Protection Agency

FHWA – Federal Highway Administration

FAST Act – Fixing America's Surface Transportation Act

FMATS – Fairbanks Metropolitan Area Transportation System

FTA – Federal Transit Administration

MAP-21- Moving Ahead for Progress in the 21st Century

MPO – Metropolitan Planning Organization

M & O - Maintenance and Operations

PPP – Public Participation Plan

SAFETEA-LU – Safe, Accountable, Flexible, Efficient Transportation Equity Act – Legacy for Users

SIP – State Implementation Plan

*TAP* – Transportation Alternative Program

*TCMs* – Transportation Control Measures

TIP – Transportation Improvement Program

#### SURFACE TRANSPORTATION FUNDING SOURCES

**3PF (Third Party Funds)** – Funding contributed by parties other than the State usually to provide required matching funds.

**AC (Advance Construction)** – An innovative financing tool permitted under FHWA rules that, with approval of the FHWA, allows the state to begin a project using state funds prior to the availability of federal funds. This tool allows the state flexibility to use its resources to more efficiently schedule project start-ups.

**ACC (Advance Construction Conversion)** – Accounting tool to track the repayment of state funds used to begin a project prior to the availability of federal funds.

AARC - Funds available through the Alaska Railroad Corporation.

**Bank** – Funds that were banked from one year to the next under agreement with ADOT&PF.

This report was funded in part through grant(s) from the Federal Highway Administration, U.S. Department of Transportation. The views and opinions of the Fairbanks Metropolitan Area Transportation System expressed herein do not necessarily state or reflect those of the U.S. Department of Transportation.

# Approved 3.21.18

**CMAQ (Congestion Mitigation/Air Quality)** – These funds are for projects that can be proven to reduce traffic congestion and/or improve air quality in federally designated non-attainment areas. Projects such as park and ride lots, transit bus replacement, vehicle inspection and maintenance program improvements, signal coordination, ride sharing, and paving for dust control qualify for these funds. The federal funds ratio varies and is either 90.97% or 100% depending upon the specific category of work.

**FAF (FMATS Appropriation Funds) and FAM (FMATS Appropriation Match)**- These funds are other FMATS funds used to supplement projects. Examples of funding sources include:

- 381 Funds made available in FY07 under SB381. CH82/06/120/18, AR60685
- DEOB/Offset Federal funding, including the non-federal share, that has been de-obligated
  from another federal project and is now available for use on another project. This funding is
  shown as informational only and only after it has been approved by the proper authority for
  changes and overruns during construction or to bring a project up to low bid, as requested,
  prior to the submittal of a PDA request.
- **GF** General fund appropriation available for use on any project.
- SB46 A FY12 state fund appropriation of \$5 million available to any project in the FMATS TIP. CH5/11/100/8, AR65818.
- **SB160** A FY13 state fund appropriation of \$7.5 million available to any project in the FMATS TIP. CH17/12/132/25, AR58609.
- SB230 A FY11 state fund appropriation of \$5 million available to any project in the FMATS TIP. CH43/10/36/24, AR65439

**ILLU (Illustrative)** – Indicates projects that would be funded and advanced if funding becomes available either through receipt of additional funds or because another project cannot be advanced; the specific source or sources of funds will be determined when and if the project is selected to be funded.

**NHPP (National Highway Performance Program)** – In MAP-21section 1106, Congress designated the NHPP to provide support for the condition and performance of the National Highway System (NHS), for the construction of new facilities on the NHS, and to ensure that investments of Federal-aid funds in highway construction are directed to support progress toward the achievement of performance targets established in a State's asset management plan for the NHS. This funding code incorporates previous NHS, IM and some BR fund codes. The federal funds ratio is 90.97%.

**CONP** – Funds made available to the FMATS Coordinator's office from the City of North Pole.

# Approved 3.21.18

**PL** – These funds are designated for the mandatory planning tasks the department undertakes, including preparation of the Statewide Transportation Plan (SwTP) and State Transportation Improvement Program (STIP), statistical measurements of the transportation system (traffic volumes, pavement condition, accident locations, causes and severity, and physical characteristics of roads and highways), mapping, and management systems. In Alaska, these metropolitan planning funds can be used in any urban area within the state. Planning processes and special planning studies are eligible activities within this program. The federal funds ratio is 90.97%.

**SM (State Match)** – The State's share of project costs required to match federal program funds. Depending on the particular federal program requirements, the state's share of the costs, the state match required, will vary from as little as zero percent to as much as 50%. Most often the state's share will range from 9.03% to 20%.

**STP (Surface Transportation Program)** – Flexible funding that may be used by the state and localities for projects on any Federal-aid highway, including the NHS, bridge projects on any public road, transit capital projects, bus terminals and facilities. Unlike other states, Alaska is allowed to use these funds on any public road in Alaska, regardless of classification. The federal funds ratio varies, typically 93.4% if spent on interstate routes or 90.97% otherwise.

TAP (Transportation Alternatives Program) – The Moving Ahead for Progress in the 21st Century Act (MAP-21) replaced the Transportation Enhancement (TE) Activities with the Transportation Alternatives Program (TA), a new program, with funding derived from the NHPP, STP, HSIP, CMAQ and Metropolitan Planning programs, encompassing most activities funded under the Transportation Enhancements, Recreational Trails, and Safe Routes to School programs under SAFETEA-LU. The federal funds ratio can be 80% or 90.97%. This program of funds is found in the STIP under Need ID 30689.

**RPL (Metropolitan Planning)** – In Alaska, these funds can be used in any urban area within the state. Planning processes and special planning studies are eligible activities within this program. The federal funds ratio is 90.97%.

#### **Transit and Rail Fund Codes**

**5307 (Capital and Operating Funds for Urbanized Areas)** – These funds are distributed to eligible urban areas according to a federally mandated formula based on population, population density, and level of public transportation service. The eligible transit operations in Alaska for this program are in Anchorage and Fairbanks. Urban areas with populations over 200,000 (Anchorage) receive funds directly from FTA and may use their funds for capital investments. Urban areas with

This report was funded in part through grant(s) from the Federal Highway Administration, U.S. Department of Transportation. The views and opinions of the Fairbanks Metropolitan Area Transportation System expressed herein do not necessarily state or reflect those of the U.S. Department of Transportation.

Approved 3.21.18

populations under 200,000 (Fairbanks) may use the funds for both operations and capital projects. In each case the project selections are made by the MPO and are listed in its TIP.

**5307RR** - **FTA** (Alaska Railroad Passenger Operations) — A portion of Section 5307 funds, Capital and Operating Funds for Urbanized Areas specifically set aside for the Alaska Railroad for costs related to passenger operations.

5309 - FTA (Capital Program) - This program provides capital assistance for three primary activities:

- (5309BU) New and replacement buses and facilities
- (5309FG) Modernization of existing rail and ferry systems
- (5309NS) (New Starts) New fixed-guideway systems (including ferry systems)

**5311 (Non-urbanized Area Formula Program)** – This program provides funding to enhance public transportation in rural and small urban areas. It also assists in the maintenance, development, improvement, and use of public transportation systems. A component of this program is the Rural Transit Assistance Program (RTAP), which provides training and technical assistance to transit operators. The federal funds ratio is 90.97% for capital projects and project administration, and up to 56.86% for operating assistance. RTAP projects are 100% federally funded.

**5337GR** (Section 5337 State of Good Repair) – A new formula-based State of Good Repair program is FTA's first stand-alone initiative written into law that is dedicated to repairing and upgrading the nation's rail transit systems along with high-intensity motor bus systems that use high-occupancy vehicle lanes, including bus rapid transit (BRT). These funds reflect a commitment to ensuring that public transit operates safely, efficiently, reliably, and sustainably so that communities can offer balanced transportation choices that help to improve mobility, reduce congestion, and encourage economic development.

**5339 – (Bus and Bus Facilities) –** Funding for capital expenses for eligible rural public transit systems.

NID	IRIS	Project Description	Fund Code	Phase	FFY17	FFY18	FFY19	FFY20	Beyond
18791-18	Z617630000	Nor Reg Signal Interconnect To fund vehicle volume, classification, speed counts, and traffic counting equipment within the PM2.5 non-attainment area. Conduct a baseline study of local road VMT, as well as data analysis and reporting.	CMAQ	All	3,300.0				
		Project Total			3,300.0	0.0	0.0	0.0	
18791-1	Z607090000	FNSB Air Quality Education							
		Development and implementation of a multi-media campaign, collection of survey/behavrioal data to support outreach activities, analyzing and distributing monitoring information, rental and purchase and operations and maintenance costs of signs displaying current air quality concentrations and enhanced outreach to support improved air quality.	CMAQ	All	500.0				
		Project Total			500.0	0.0	0.0	0.0	
18791-Z	Z63386	Fairbanks Area Signal Timing Upgrades  Conduct a signal timing review to provide recommendations for signal coodination and to integrate signal timing improvements. Priority will be given to NHPP routes and higher functional class corridors within the Fairbanks PM2.5 non-attainment area to promote travel efficiency and reduce delays, thereby reducing PM2.5 emissions.	CMAQ	All	3,530.0	3,530.0	3,530.0		
		Project Total			3,530.0	3,530.0	3,530.0	0.0	
24756-10	Z604440000	Heavy Duty Diesel Anti-Idling Maintenance and Emission  Project funding to support existing anti-idling pilot at DOT&PF by assisting with Telemetric purchase and installation. To expand anti-idling to other heavy duty vehicle fleets within the FNSB non-attainment area. Implement other vehicle emission reduction techniques through inspection and retrofit upgrades.
