

**Alaska Community and Public Transportation Advisory Board  
Transit Conference Input and Priorities  
October 31, 2012**

---

Twenty individuals responded to the C&PTAB prioritizes questionnaire distributed at the 2012 Transit Conference. Of those:

- 15 said they are happy with the way C&PTAB prioritized the activities
- three suggested other priorities and made comments and also signed up for work groups as proposed
- one made a suggestion specific to tribal involvement and did not sign up, and
- one made comments and provided no contact information.

This following table identifies individuals who expressed a willingness to participate on C&PTAB work groups (note, there are duplicates).

<b>1. Leveraging Resources</b>	<b>2. Performance Measures</b>	<b>3. Identify Barriers/Medical Transportation</b>	<b>7. Smart Cards</b>

## **COMMENTS/OTHER PRIORITIES:**

### **Clarence Daniel, 907-543-7451, clarence@avcp.org**

- I think there needs to be input from the rural/remote area Tribes. Nothing against CITC, but they are centered in an urban area. Goal 3 cannot be accomplished as long as the state of Alaska does not recognize the tribes.

### **Sue Deyoe, 907-733-9279, sdeyoe@sunshineclinic.org**

- Would also like 'green vehicle' discussion/looking at alternative fuel vehicles. Demand vehicles that get more than 20 mpg/emissions. Not American made.

### **Gerry Hope, 907-747-5910, gerry.hope@sitkatriben-sn.gov**

- In priority order: Goal 3, Goal 1, Goal 2, then Goals 4-8 as indicated. Will work on goal 3 (his first priority) as described, work on Goal 1 (statute portion).

### **Joan O-Keefe, 907-586-4920x230, jokeefe@sailinc.org**

- I wish #6 (Accessibility standards and model taxicab ordinance) had made this list. Signed up to help with those when ready)

### **Leonard Barger, 907-368-2330, leonard.barger@tikigaq.org**

- I would like to know as an Alaska Native to learn more so I can let our native people know what is out there for them.

### **Judy Tymick, 907-343-4536, tymickjd@muni.org**

- Priorities: 1 - State funding for public transportation; 2 - performance measures, 3 - minimum inspection and maintenance standards, 4 - Review Alaska Transit Technologies. Comments: Not smartcards - instead, shared dispatching or 511/IVR

### **No Name/Contact provided**

- Goal 1: Board has no power to secure commitment; transportation Commission a waste of time and eliminate; statute to require coordination
- Goal 2: what does "integrate performance measures" mean? How do you do this?
- Goal 4.B: nearly impossible to fund
- Goal 6: edit A to meet (but not exceed) - it costs too much to implement
