Subject: RE: Proposed distribution of SFY12 state match for public transportation

Public Comment:

I am pleased at the manner in which the State is proposing to distribute match funds across the State of Alaska. Consumer/rider groups from the Kenai Peninsula communities have put time and effort into advocating for State transportation funding. I would like to clarify the information received that State Match Funds allocated: Independent Living Center-Soldotna \$2905.83, Independent Living Center-Homer-\$1794.78, Independent Living Center-Seward-\$915.19 will be used in such a way that the agency sees fit (i.e. as operating costs for Voucher Purchase of Service program.)

Thanks.
