Subject: comment on proposed distribution of legislative appropriation

Hi Stephanie,
Nice talking with you on the phone on Friday. As we discussed, this is my question:

SAIL received a grant award for a replacement vehicle for our Ketchikan program not in the most recent round of grants, but in the one prior. We thought we had the 20% match but it fell through. We requested and were granted an extension from ADOT&PF. If the proposed distribution of the \$1 million is approved, could SAIL use the funds allotted as a Juneau match toward our needed Ketchikan match?

p.s (We plan to go to the Ketchikan Gateway Borough and possibly Holland America for the balance of funds needed in Ketchikan. These funds would help us leverage that balance)

Thank you!
