# Top ANC Airline Narrow-body Freighter Landings for CY 2024

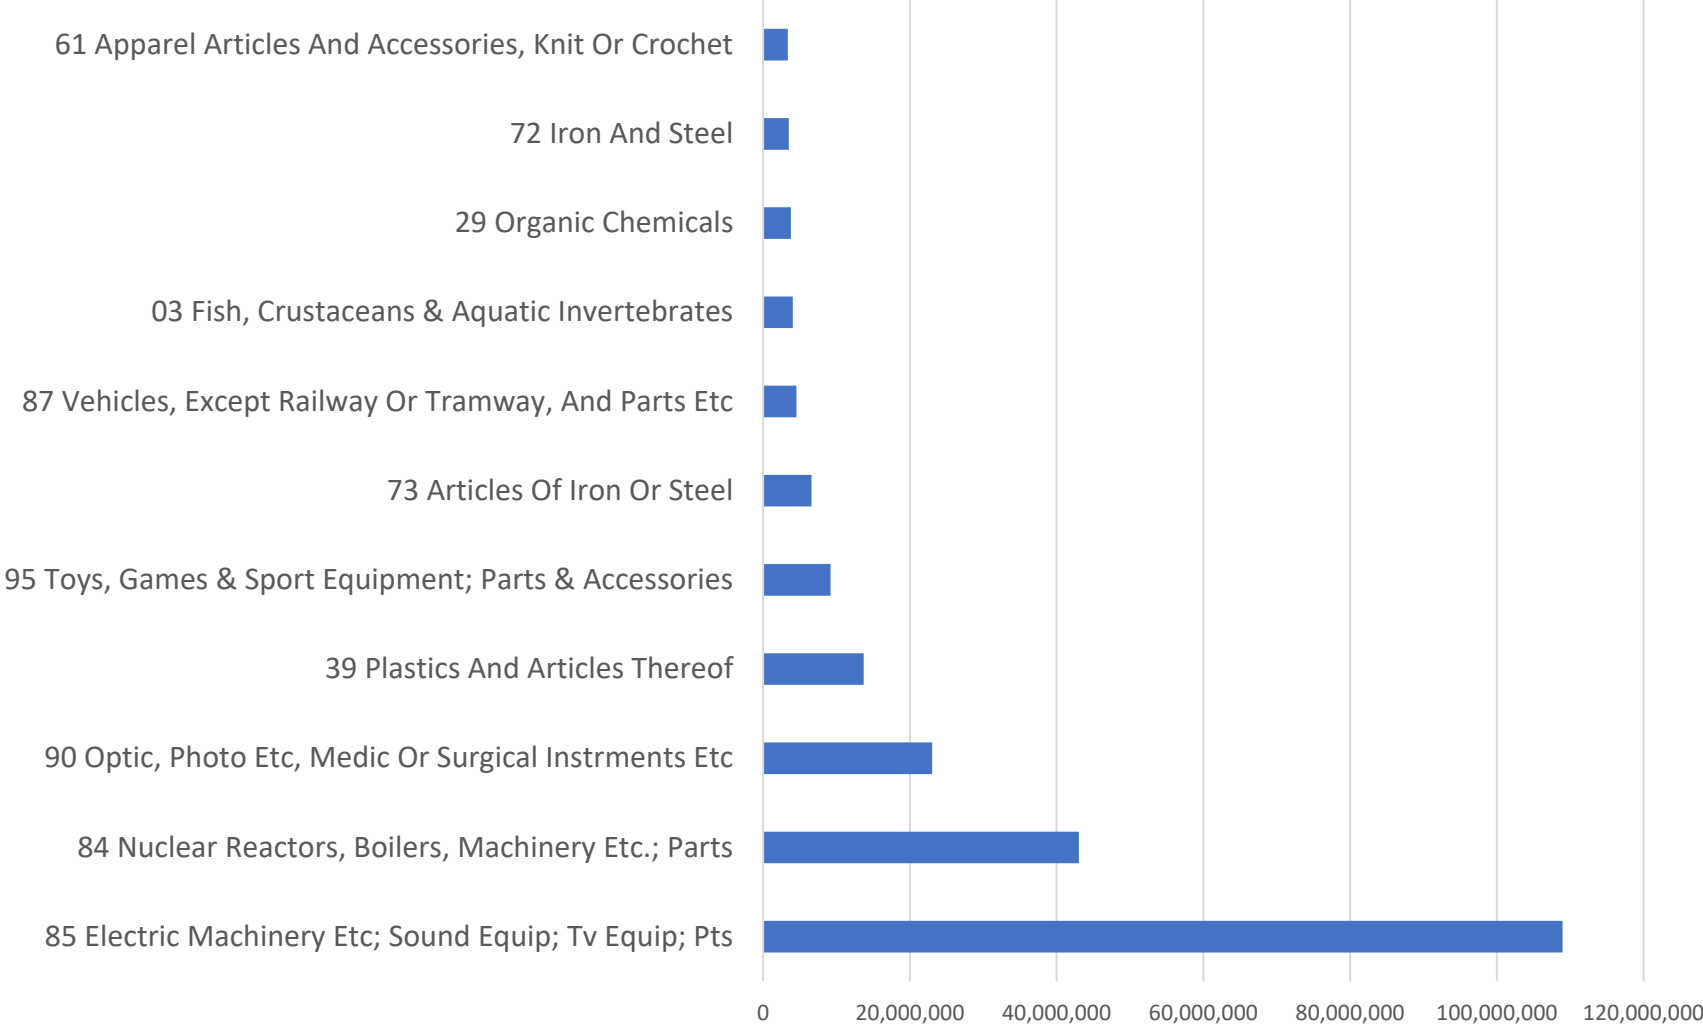

# Summary of Commodities Shipped by Air

Air Imports and Exports through Port of Anchorage CY 2023	Total All Commodities
Air Exports by value	\$18,462,348,018
Air Imports by Value	\$34,670,770,656
Total Air Exports/ Imports	\$53,133,118,674
Air Exports by weight (kg)	100,744,480
Air Imports by Weight (kg)	189,483,528
Total Air Exports/ Imports (kg)	290,228,008

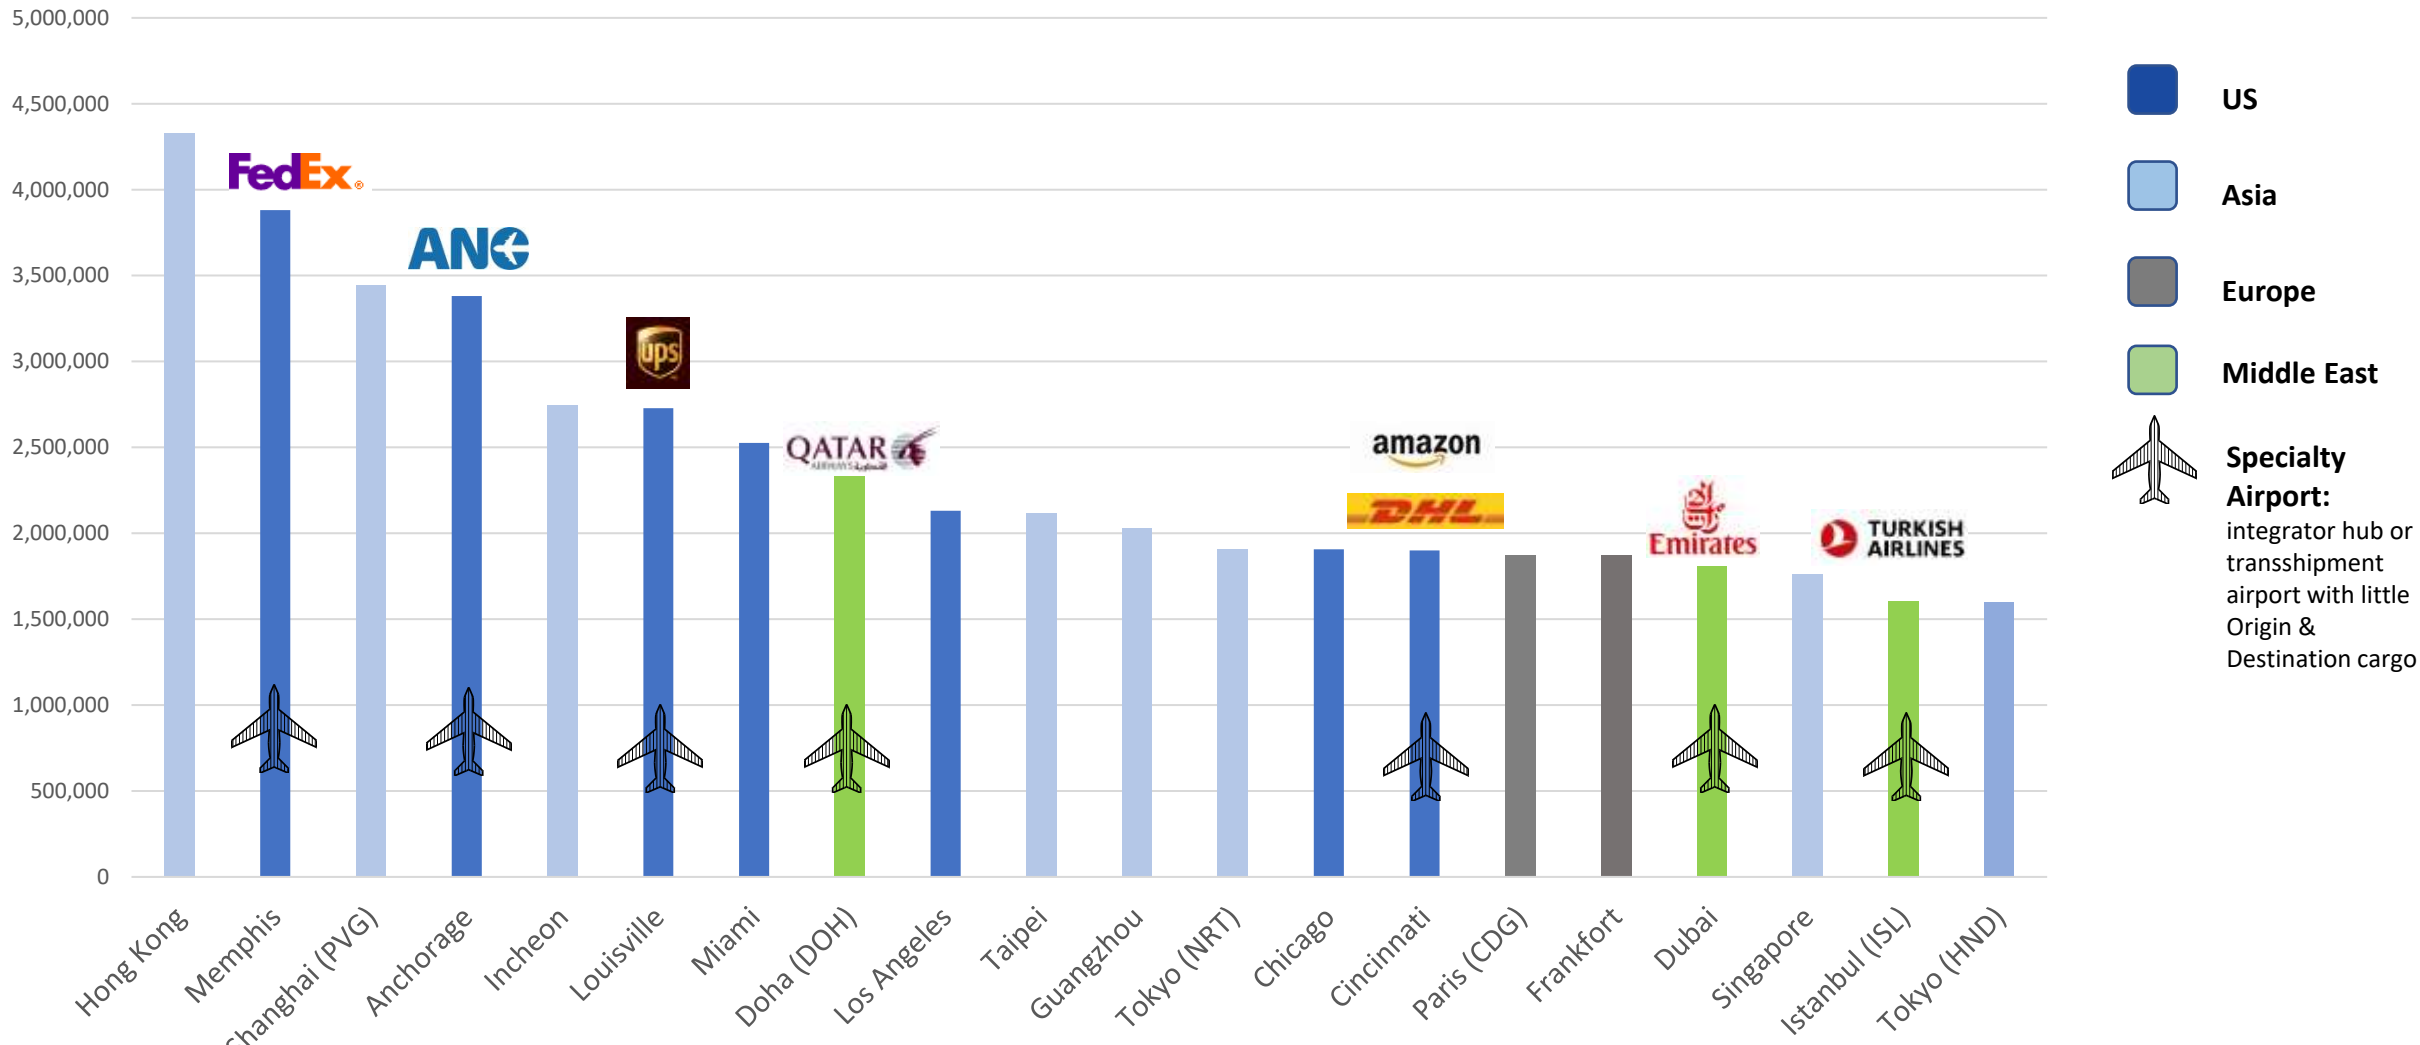

Not unexpectantly, air imports, both by value and weight, were almost double the air exports through the Port of Anchorage in CY 2023, reflecting the national trade balance between the US and Asia. The top commodities being flown by air included machinery and parts; computers and other office machines; sound equipment, TV equipment and parts; optic, photo, medical or surgical instruments, etc. Most of these commodities were destined or originated in the lower 48.
