As we work to establish regulations for our Construction Manager / General Contractor (CMGC) codified procurement method, we will continue to seek approvals from the Department of Law for each individual CMGC effort as an innovative procurement method under AS 36.30.308.

Please ensure you obtain this approval before submitting a CMGC Procurement approval request and CMGC Procurement Plan to the Chief Contracts Officer. Attach the Department of Law approval to your request.

Thank you for your cooperation.
