## 2023 Project Information Sheets

### Interior Region Projects

- Kaltag Airport Improvements
- Fairbanks International Airport GA Apron & Taxiway Reconstruction
- Airport Way - Steese Expressway Reconstruction (HSIP)
- North Pole City Core Standardization and Improvements
- Richardson Highway MP 128-138 Rehabilitation
- Richardson Highway MP 233 Bear Creek Bridge Replacement
- Chena Hot Spring Road MP 0-6 Rehabilitation
- Fairbanks 5th Avenue Reconstruction
- Northern Region Guardrail Upgrades - Glenn, Richardson, and Tok Cutoff Highways
- Healy Spur Road Rehabilitation
- Alaska Hwy MP 1222-1227 Resurfacing
- Northern Region ADA Improvements - Fairbanks College Road
- Alaska Hwy MP 1235-1252 Rehabilitation.
- Fairbanks Area PM 2.5 Motor Vehicle Plug-Ins.
- FAST Area Surface Upgrades FFY2023
- Northern Region Dynamic Messaging Signs - Targeted Airshed GrantFinal
- Nenana-Totchaket Road, Phase 1
- Alaska Highway Passing Lanes MP 1330-1400
- Richardson Highway MP 266-341 Passing Lanes.
- Parks MP 231 Enhancements
- Airport Way (West) Improvements & Airport Way West Bicycle-Pedestrian Facility
- Richardson Highway MP 167-173 Reconstruction
- University Avenue Rehabilitation & Widening
- Northern Region ADA Improvements

Alaska Department of Transportation and Public Facilities

# 2023 Construction Project Overview

**Project Name:** Kaltag Airport Improvements

**Project Number:** NFAPT00254

**Project Description:** Resurface the runway, taxiway, apron, and access road and apply dust palliative to operation surfaces. Remove airport obstructions and rehabilitate. Replace snow removal equipment building (SREB), segmented circle, and airport lighting and electrical components.

**Project Purpose:** Resurface the runway, taxiway, apron, and access road and apply dust palliative to operation surfaces.

**Anticipated Start Date:** May 2022

**Anticipated End Date:** August 2023

**Project Website:** [dot.alaska.gov/construction](https://dot.alaska.gov/construction)

**Project Name:** North Pole City Core Standardization and Improvements

**Project Number:** NFHWY00260

**Project Description:** This project will install new LED street lighting with additional lighting in the city core.

**Project Purpose:** The purpose of this project is to improve safety in these subdivisions. The subdivisions have areas of lighting that are not uniformly placed or non-existent. Many lights are unmetered with no service disconnects. The project will replace old luminaires with electroliers with LED streetlights and be compliant with current design standards.

**Anticipated Start Date:** May 2023

**Anticipated End Date:** September 2023

## 2023 Construction Project Overview

**Project Name:** Richardson Highway MP 128-138 Rehabilitation

**Project Number:** NFHWY00265

**Project Description:** Rehabilitate the Richardson Highway between MP 128-138. Improvements include re-paving the road, embankment slope flattening, drainage improvements including replacing failing/undersized culverts, and continued work on the future MP 134 re-alignment.

**Project Purpose:** The project is being constructed to extend the service life of the facility and improve safety. The existing roadway has experienced uneven settling and heaving which has deteriorated the pavement structure and damaged culverts. In addition the project is prepping for a future Richardson Highway re-alignment around the MP 134 area to move the highway away from encroaching Gulkana Riverbank erosion.

**Anticipated Start Date:** April 2023

**Anticipated End Date:** October 2023

**Project Name:** Northern Region Guardrail Upgrades - Glenn, Richardson, and Tok Cutoff Highways

**Project Number:** NFHWY00516

**Project Description:** Reconstruct select guardrail on the Glenn, Richardson, and Tok Cutoff highways to meet current design standards. The work includes replacing roadside hardware such as bridge rail transitions, signs, and minor drainage features.

**Project Purpose:** The project is intended to replace guardrail to meet current design standards which can more safely redirect taller and heavier modern vehicles. Much of the existing guardrail was installed before the most current standard was issued.

## 2023 Construction Project Overview

**Project Name:** Healy Spur Road Rehabilitation

**Project Number:** NFHWY00580

**Project Description:** This project will rehabilitate Healy Spur Road between the Parks Highway and Carbon Way (1.25 miles). Work includes widening shoulders, drainage improvements, and resurfacing the existing road. Utility relocation and sign replacements will be addressed as needed.

**Project Purpose:** Pedestrian usage has increased substantially in Healy over the past few years with the expansion of nearby Denali National Park tourist facilities. This project will address increased usage and greater community cohesion, as well as an aging roadway.

**Anticipated Start Date:** April 2023

**Anticipated End Date:** September 2023

## 2023 Construction Project Overview

**Project Name:** Northern Region ADA Improvements - Fairbanks: College Road

**Project Number:** NFHWY00591

**Project Description:** This project will replace/widen selected sidewalks on College Road between Margaret/Antoinette Avenues intersection and the Steese Highway. This project includes regrading driveways as needed and some associated curb and gutter work as well. Curb ramps within this section of College Road will be replaced under the East College Road Resurfacing project, which will be constructed at the same time as this project.

**Project Purpose:** The purpose of this project is to bring pedestrian facilities up to current ADA standards.

## 2023 Construction Project Overview

**Project Name:** Nenana-Totchaket Road, Phase 1

**Project Number:** NSHWY00657

**Project Description:** Rehabilitate the existing 12-mile Totchaket Road and perform drainage improvements. Replace the West Middle, East Middle, and Little Nenana River Bridges. Reconstruct the 5-mile Slough Crossing and construct up to 4.7 miles of new road extension.

**Project Purpose:** The existing Totchaket Road is in poor condition with no surface course and observed settlement in multiple locations. The West Middle, East Middle, and Little Nenana River Bridges have experienced settlement at the abutments and need to be rehabilitated. DOT&PF also proposes to extend the road up to 4.7 miles to coincide with the end of the proposed Phase 1 DNR agricultural land sales.

**Anticipated Start Date:** Spring 2023

**Anticipated End Date:** Winter 2023/2024

# 2023 Construction Project Overview

**Project Name:** Airport Way (West) Improvements & Airport Way West Bicycle/Pedestrian Facility

**Project Number:** Z618720000 & NFHWY00447

**Project Description:** Reconstruct Airport Way, Hoselton Road, Dale Road, Old Airport Way, and Wien Lake Road. In addition, construct a bicycle/pedestrian connection on Airport Way West from the Fairbanks International Airport terminal to Dale Road. Work includes roadside hardware, drainage improvements, intersection improvements, utilities and ADA improvements such as curb ramps and sidewalks.

**Project Purpose:** The purpose of this project is to improve pavement conditions, minimize maintenance costs, provide increased safety and connectivity for all users, and extend the usable life of the Airport Way corridor between Wien Lake Road and the Parks Highway.

**Start Date:** Summer 2022

**Anticipated End Date:** Summer 2023

## 2023 Construction Project Overview

**Project Name:** Richardson Highway MP 167-173 Reconstruction

**Project Number:** Z631860000

**Project Description:** Reconstruct the Richardson Highway between MP 167 and 173 with two 12-foot lanes and 6-foot-wide paved shoulders. Additional work includes drainage improvements and replacement of roadside hardware. The scope includes a realignment of a segment of the highway MP 169.6 to MP 171.3.

**Project Purpose:** The project is being constructed to improve safety by bringing this section of the Richardson Highway up to current design standards. The pavement needs replacement, the embankment is steep, and the alignment has numerous sharp horizontal and vertical curves that need to be flattened.

**Anticipated Start Date:** April 2024

**Anticipated End Date:** October 2025

**Project Website:** <https://dot.alaska.gov/construction>

## 2023 Construction Project Overview

**Project Name:** University Avenue Rehabilitation & Widening

**Project Number:** Z632130000/NFHWY00643

**Project Description:** Reconstruct and widen University Avenue from Airport Way to the Mitchell Expressway including continuous sidewalks, raised median, and drainage improvements. Work includes intersection improvements at Rewak Drive, utility relocations, and construction of a cul-de-sac on Marlin Street.

**Project Purpose:** To improve safety through construction of access control along this busy corridor, as well as provide a continuous bicycle/pedestrian route.

**Anticipated Start Date:** May 2023

**Anticipated End Date:** October 2023

**Project Website:** <https://dot.alaska.gov/nreg/university/>
