

Dimond Pavement Preservation Project

Project Fact Sheet

Project Description

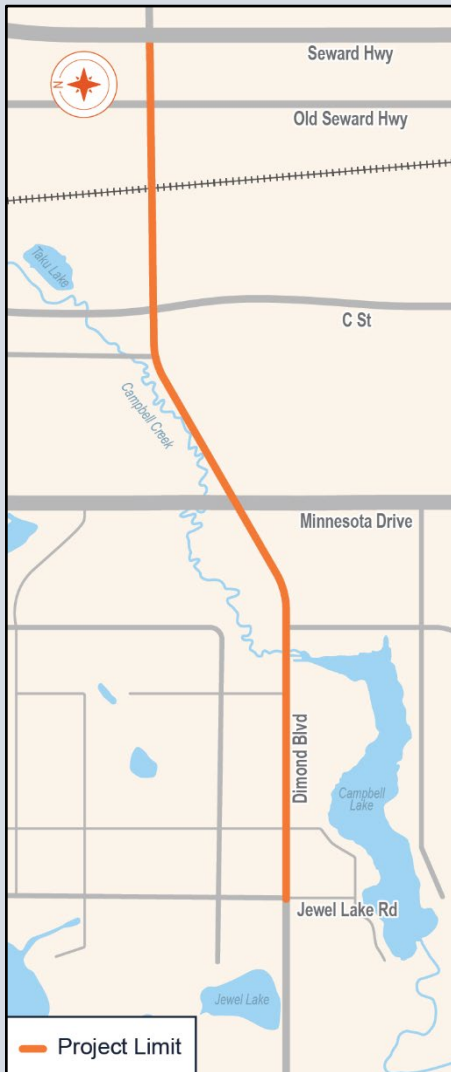

Due to deteriorated pavement condition, the State of Alaska Department of Transportation and Public Facilities (DOT&PF) proposes to resurface Dimond Boulevard from Seward Highway to Jewel Lake Road as part of the larger project Anchorage Area Roads Group A Pavement Preservation. This project would extend the service life of the roadway and reduce future maintenance costs. Key design features of this project may include:

- Resurfacing
- Drainage improvements
- Structural section repairs
- Signage & striping
- Roadside hardware
- Vegetation clearing
- Utility relocation
- Guardrail replacement and repair
- Minor bridge rehabilitation
- Pedestrian facilities and Americans with Disabilities (ADA) compliant curb ramps.

Project Schedule

Public Involvement	Ongoing
Preliminary Design	2023 – 2026
Final Design	2027 – 2028
Anticipated Construction <i>(or later based on available funding)</i>	2029
