

Seward Highway Pavement Preservation Project

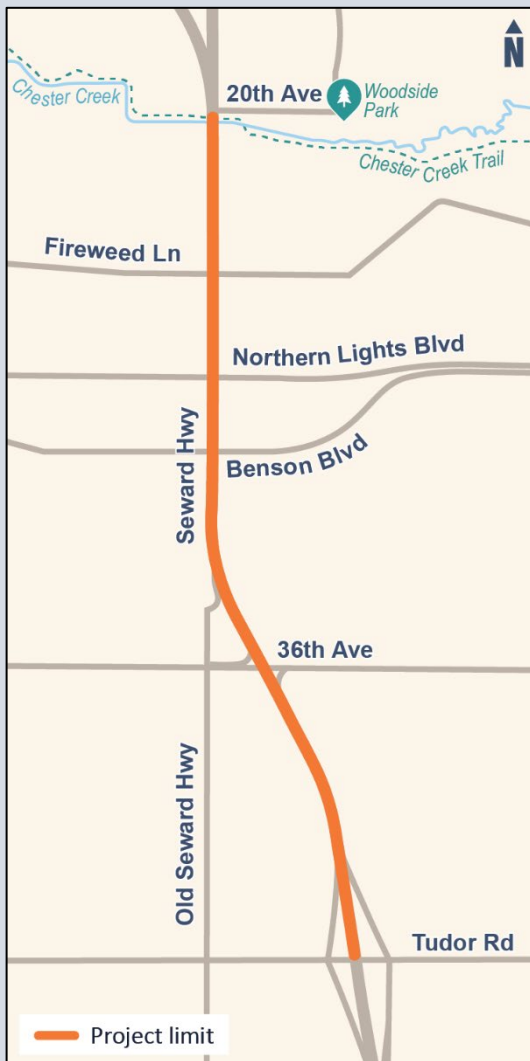

Project Fact Sheet

Project Description

Due to deteriorated pavement condition, the State of Alaska Department of Transportation and Public Facilities (DOT&PF) proposes to resurface Seward Highway from Tudor Road to 20th Avenue as part of the larger project Anchorage Area Group A Pavement Preservation. This project would extend the life of the roadway and reduce maintenance and operation efforts. Work comprises roadway resurfacing, and may include improvements to:

- Resurfacing
- Drainage improvements
- Structural section repairs
- Signage and striping
- Roadside hardware
- Vegetation clearing
- Utility relocation
- Intersection improvements
- Pedestrian facilities and Americans with Disabilities (ADA) compliant curb ramps

Project Area

Project Schedule

Public Involvement	Ongoing
Preliminary Design	2023 – 2025
Final Design	2025 – 2027
Anticipated Construction <i>(or later based on available funding)</i>	2027
