DBE Goal Review / Approval

Creating a DBE goal for a proposal is performed entirely in AASHTOWare Project (AWP). The system is set up to allow both the RCCL User (Regional Contracts Compliance Liaison) role and the Proposal User role to select DBE items. However, those with the RCCL User role will create DBE goals in AWP and enter the goal data. Once the DBE goal has been created and the CRO (Civil Rights Office) notified, users with the CRO DBE User role can review and approve the goal.

1. Log into AWP (see Chapter 1).
2. Make sure you are in the **CRO DBE User** role (see Chapter 2 for more info on roles).
3. (Figure 14.1) From the Proposal Overview component on the CRO DBE User role dashboard, (A) search for and (B) select your proposal. NOTE: A minimum of a three (3) character string is required for the system to search. You can search by Proposal ID (State/IRIS number) or the Proposal Name.

4. (C) Expand the Proposal Summary component **action menu**.
5. (D) Select **Attachments**.

The DBE Goal Set report groups the DBE items selected by DBE Work Category (*Figure 14.4*). The report divides the Proposal DBE Total amount by the Estimated Contract Amount to arrive at the Total Subcontract Percentage (or DBE Goal percentage).

7. Verify that the DBE items and associated work categories are correct.

OJT Goal Review / Approval

Creating an OJT goal for a proposal uses both AASHTOWare Project (AWP) and the OJT Goal excel worksheet. Items are marked in the database as either labor or non-labor. The OJT Goal set report will list all the items on the proposal marked as non-labor with a total at the bottom as well as the engineer's estimate total amount. These two totals will be entered into the OJT Goal worksheet and the number of OJT positions and hours will calculate. The RCCL User role has the ability to run the OJT Goal Set Report and enter goal information into the Proposal Summary component. Once the OJT goal has been created and the CRO (Civil Rights Office) notified, users with the CRO OJT User role can review and approve the goal.

1. Log into AWP (see Chapter 1).
2. Make sure you are in the **CRO OJT User** role (see Chapter 2 for more info on roles).
3. (Figure 14.8) From the Proposal Overview component on the CRO DBE User role dashboard, (A) search for and (B) select your proposal. NOTE: A minimum of a three (3) character string is required for the system to search. You can search by Proposal ID (State/IRIS number) or the Proposal Name.
