Re: Request for SHPO Section 106 Review  
RESPEC Project No. 14034.01JN-SOA\_HNS

Ms. Applegate,

Per our phone conversation earlier today, July 8, 2024, please find the attached information, if you have any questions feel free to call me:

RESPEC, represented by Scott Allan, Civil Designer (scott.allan@respec.com), is submitting a Request for SHP Section 106 Review. The other parties involved include the Department of Transportation and RESPEC. The project, named the Haines Maintenance and Operations Station, is located at 800 & 806 Main Street, Haines, Alaska, 99827, with coordinates at latitude 59.23686 and longitude 135.45599. The landowner is the State of Alaska. The purpose of this project is to provide the Haines DOT M&O station with a facility equipped to perform all maintenance and repair work on their heavy equipment and to offer a warm storage area for their vehicles and equipment used for highway maintenance and snow removal operations. There will be ground disturbance in this project of approximately 4 acres. The Civil work for this project after the demolition of the existing building will include on-site excavation of existing materials, imported structural fill, base course grading D-1, E-1, as well as concrete and asphalt paving. Also included will be water and sewer utility installation and disposal of existing materials. According to the National Register of Historic Places database, there are no known historic places located within the project area, and no archaeological resources on the property.

U.S. COURT OF APPEALS FOR THE NINTH CIRCUIT  
PACIFIC DIVISION
