

GLENN HIGHWAY BRIDGE DECK PRESERVATION

DESIGN PROJECT MANAGER – CHRISTINA HUBER, P.E.

Scope: This Federally-funded “1R” Bridge Preservation project will rehabilitate three Glenn Highway bridge decks (Both Knik River bridges and the northbound Peters Creek bridge) The purpose of the project is to mitigate rutting and extend the service life of the bridges/roadway while enhancing safety.

The proposed work will: <ul style="list-style-type: none"> • Extend the service life of the bridges. • Reduce bridge maintenance costs. • Replace damaged drainage hardware. • Replace impaired guardrail and bridge rail where needed • Waterproofing the bridge and reduce corrosion. • Upgrade signs and striping. • Adjust utilities as needed. 	Phase	Budget	Schedule
	Ph 2 Design	\$ 550,000	April, 2020
	Ph 3 ROW	\$ 0	N/A
	Ph 7 Utilities	\$100,000	June, 2023
	Ph 4 Construction	\$8,700,000	June, 2023
	Total	\$9,350,000	
<u>Issues:</u> None	<u>Status:</u> Project design underway.
