

# FACT SHEET

## **GLENN HIGHWAY: Airport Heights to Parks Hwy Rehab** *Project No. 0001656 / CFHWY00545*

### **Project Scope**

The State of Alaska Department of Transportation and Public Facilities (DOT&PF), in cooperation with the Federal Highway Administration (FHWA), is proposing to rehabilitate the Glenn Highway from Airport Heights (MP 0.0) to the Parks Hwy interchange (MP 32.5). The purpose of the project is to extend the service life of the facility and provide safety and capacity improvements where required. The project may include improvements to the roadway surface, structural section, drainage features, bridge repairs, ADA improvements, guardrail, lighting, and roadside hardware. The project proposes to include additional analysis and potential inclusion of some improvements identified in the recently completed Glenn Hwy ICM Study (2019).

### **Current Status**

DOT&PF has received funding to proceed to final design after completing the environmental document. The Department is utilizing consultant staff for the projects design. After recently completing studies of the corridor to identify needed improvements, the design efforts are now underway and will be working towards a draft Design Study Report (DSR) and a local (30%) plan review by summer of 2022.

### **Schedule**

Preliminary Design – March 2020 to October 2021  
Final Design – October 2021 to April 2024  
Construction – Summer 2024\*

\* Construction schedule is dependent on many factors including the availability of funding. The project is also likely to be separated into phases for construction, with the first phase occurring the date noted above.
