Protracted Section 3

NOTES

- Field survey performed by Alaskan Consulting Surveyors 10/97 through 8/98.
- Project bearings are local bearings oriented to the NAD83 geodetic mean bearing of the runway centerline. The mean geodetic bearing of the runway was determined from ties to found monuments at BLM Geo Station "KTC 1996" and at the Witness Corner to Corner 3, Lot 5, U.S. Survey No. 11477.
- The Bearings shown are local plane bearings as oriented to the basis of bearings, and distances shown are reduced to horizontal ground distances.
- The Basis of Coordinates is BLM Geo Station "KTC 1996" as shown on the plat of USS 11477.
- All dimensions are shown in meters unless otherwise noted. Meter to Foot conversion factor is 3937/1200.
- Stationing shown is Runway 17/35 stationing unless otherwise specified.
- The minimum closure of field traverses exceeds 1:10,000.
- See Book 33, Pages 185 through 190, Bethel Recording District, for Parcels 1A, 1B, and 1C Deeds.
- See Property Plan Sheet 2 of 2 for information on adjoining lands.
