## ***Small Business Element Concession Program (SBEC)***

The Alaska Department of Transportation and Public Facilities (Alaska DOT&PF) has adopted the U.S. Department of Transportation (U.S. DOT) Final Rule to enhance small business participation in airport concessions through the Small Business Element Concession (SBEC) Program. This initiative is designed to create equitable opportunities for small businesses, fostering a diverse and competitive concession marketplace. By recognizing and supporting the capabilities of these businesses, the program aims to strengthen economic growth and inclusion within Alaska's primary airports.

At ANC, we have identified a small number of leasehold locations with square footage that ranges from 130 square feet up to 1000 square feet. However, as some of these spaces remain under existing agreements, they may not be immediately available but will be through future solicitations.
