## Building Teaming Relationships

Competitor or Business Partner?

## Marketing to Potential “\_\_\_\_\_”

- ❖ Before you knock on the door looking for potential teaming partners, ask yourself:
  - What do you need from them?
  - What do you (or your business) bring to the table?
  - How can the teaming relationship benefit the potential teaming partner(s)?

But first, let's assess your business...

“Honesty is the first chapter in the book of wisdom.”  
– Thomas Jefferson

## Company Self-Assessment

- ❖ Why team with another company? What do you need to complete the next contract, break a bottleneck, or diversify/expand into another area?
  - Physical Capital
  - Intellectual Capital
  - Human Capital
  - Financial Benefits

*Before entering into a teamed / contractual business relationship, assess your own company standing.*  
*What does your company need and what can it offer?*

<https://americassbdc.org/8-reasons-to-consider-collaborating-with-another-small-business/>

## Ability, Capacity & Capability

- ❖ **Ability** – the skill, knowledge or power to do something
- ❖ **Capability** – the ability to do something in “either/or” scenarios; The capability of a business refers to its ability to do something when all its resources are optimally employed.
- ❖ **Capacity** – the innate potential; the business capacity refers to the maximum level of output that it can yield and deliver within inherent limitations

Ability	Capability	Capacity (Max level of output)
<ul style="list-style-type: none"> <li>• Staff (People):</li> <li>- Management</li> <li>- Key Personnel</li> <li>- W-9 Employees</li> <li>- Subcontractors</li> <li>• Staff Training &amp; Certification</li> <li>• Contingency Plans</li> <li>• Standard Operating Procedures</li> </ul>	<ul style="list-style-type: none"> <li>• Past Performance</li> <li>- Completed projects</li> <li>• Existing Master Subcontract Agreements</li> <li>• Contingency Planning &amp; Resources</li> <li>• Accounting Systems</li> <li>- Job Codes</li> <li>- Cost tracking mechanisms</li> </ul>	<ul style="list-style-type: none"> <li>• Bonding Capacity</li> <li>- Maximums: Ceiling &amp; Project limitations</li> <li>- Available Bond Amount?</li> <li>• Work in Progress</li> <li>- Availability of Manpower</li> <li>- Availability of Equipment</li> <li>• Financial Resources</li> <li>• Risk Management Limitations</li> <li>• Contingency Resources</li> <li>• Supply Chain Availability</li> <li>• Inherent Limitations</li> </ul>

## Teaming Strategies

- ❖ Competitors vs. Potential Teaming Partners
  - Business growth: more employees or strategic partnering?
  - What business bottlenecks are slowing business growth?
  - Diversification – new locations or new product and/or service lines?

But first, let's define teaming...

“Coming together is a beginning.  
Keeping together is progress.  
Working together is success.”  
-Henry Ford

## Teams vs Joint Ventures

### Prime/Sub Teams

- ❖ Only one party (prime) performs at the prime contract level and is responsible to the government
- ❖ Subcontractor typically paid on a pre-determined basis
- ❖ No new legal entity created
- ❖ Subcontracting limits apply to prime only (but note similarly situated entity rule)

### Joint Ventures

- ❖ Both parties perform at the prime contract level and are responsible for the entire contract
- ❖ Parties typically split profits and losses
- ❖ Parties create a new legal entity (e.g., LLC) & registered in SAM
- ❖ Subcontracting limits apply to JV as a whole

## Prime/Sub Teams

### Prime/Sub Teams – Teaming Agreements

- ❖ **Privity of Contract:** 1 to 1 relationship between government and prime contractor
- ❖ **Teaming Agreements**
  - FAR does not require prime/subcontractor teaming agreements
  - Procuring agencies sometimes (perhaps increasingly) require teaming agreements to be submitted with proposal
    - These agencies may decline to consider a subcontractor's past performance, capabilities, etc. without a teaming agreement
  - Lock-in commitments from prospective teammates
    - Prime doesn't want to rely on prospective subcontractor's qualifications & resources, only to have a subcontractor decline to participate
    - Subcontractor doesn't want to spend time and energy on proposal only to receive no subcontract
  - Establishes rules (if any) for exclusivity
  - Avoid difficult post-award disputes
  - Demonstrate compliance with key requirements

### Prime/Sub Teams – Subcontracts

#### ❖ Subcontracts

- Teaming agreements → Subcontracts: Teaming agreement is a “chasing the contract document” and a subcontract is a “performing the contract” document.
- More detailed – project and/or scope specific
- Must include mandatory FAR provisions
  - A flow-down is a provision of a prime contract that the prime contractor includes in a subcontract. FAR required primes to flow-down many clauses – failing to flow-down, when required, is a breach of contract!
- This is a **negotiated agreement** and should be specific to a singular contract activity. Subcontractors should be ready to push back against non-compliant terms
  - Scope of Work should be specific to avoid disputes
  - Payment & invoicing provisions should be included
  - Dispute resolution
  - Termination provisions: Termination for Convenience and Default
  - Non-disclosure provisions
  - Ensured compliance with subcontracting limits
  - Term of subcontract – how will the prime address contract options?

### Where to find potential teaming partners

- ❖ Dynamic Small Business Search (DSBS)
- ❖ System for Award Management (SAM.gov)
- ❖ Federal Procurement Data System (FPDS) Next gen
- ❖ State of Alaska DBE Directory (or other state directories)
- ❖ Professional Organization training or networking events

### Vetting potential teaming partners

- ❖ Dynamic Small Business Search (DSBS)
- ❖ Federal Procurement Data System (FPDS)
- ❖ Contractor Performance Assessment Reporting System (CPARS) – past performance
- ❖ Risk Management concerns
- ❖ Legal concerns
