# How to self-register for access to SOAguest WiFi

Prerequisite(s): A text enabled mobile phone is required to complete the registration process.
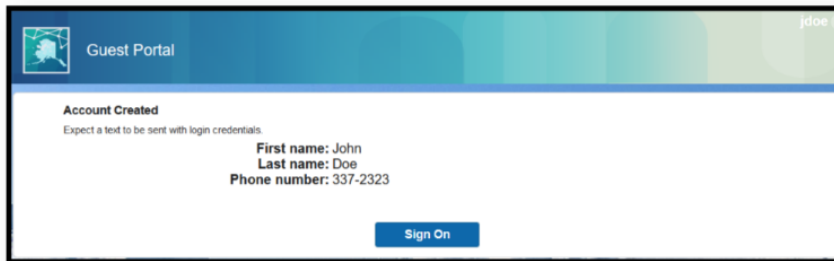

1. On the device you would like to connect to the wireless, open the 'Available Wireless Networks' menu.
2. Connect to the SOAguest WiFi network.
   Once connected to the SOAguest network, A 'Guest Portal' window will appear.
3. Click **Or register for guest access**.
   A 'Registration' window will appear.
4. Complete the instructions on the form.
   a. First Name
   b. Last Name
   c. Phone number
      Note: The phone number should be a mobile phone number, the credentials are sent via a text.
   d. SMS provider

5. Click **Register**.
   An 'Account Created' window will appear. A text with the login credentials will be sent to the phone number provided during registration.

The user will then be able to log in to the SOAguest wireless network for 24 hours.

For users who need access to SOAguest longer than 24 hours, they must repeat the self-registration process every 24 hours.
