

Instructions

Have you ever accessed 511?

How often do you look at our weather cameras?

Road Maintenance: Instructions

You're driving to and from work or your most visited location other than home...

On your "daily commute" in a vehicle, do you know the difference between which roads are local and which are state (maintained and/or owned)?

4.2

I would have to look it up

I could write the manual

15

Enter a major street(s) so we have an idea of where we're talking about

Elmore Road

Benson

Huffman Road

Huffman and Lake Otis

Seward Highway, Northern Lights Blvd.

How QUICKLY do STATE roads on that commute get cleared?

How QUICKLY do STATE roads on that commute get cleared?

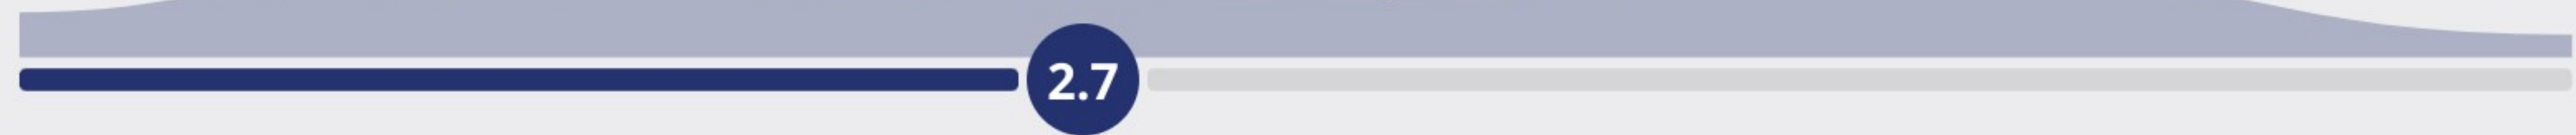

Lighting fast

Never cleared

To what **CONDITION** do **STATE** roads on that commute get cleared?

To what **CONDITION** do **STATE** roads on that commute get cleared?

The bare pavement is nice

My car should have skates

What (OTHER THAN MORE FUNDING) would you recommend the STATE do to clear roads more QUICKLY and/or to a better CONDITION?

Clear the sidewalks faster

Get more/better contracts in place earlier

more funding

Clear sidewalks as soon after the road is cleared as possible

Prioritize sidewalks more

The ability to submit and have DOT respond to feedback could be a game changer!

Clear sidewalks faster , haul out budget lacking?

Don't store snow on sidewalks

14

What (OTHER THAN MORE FUNDING) would you recommend the STATE do to clear roads more QUICKLY and/or to a better CONDITION?

Let know know where the plows are in the routes so we know what to anticipate

More staff

Prioritize sidewalks to be cleared faster

Don't berm intersections

In Anchorage clear ice from sidewalks after a thaw event.

Clear sidewalks with larger equipment

clear faster, and if it packs use a grater quickly

Don't bury bus stops

14

What (OTHER THAN MORE FUNDING) would you recommend the STATE do to clear roads more QUICKLY and/or to a better CONDITION?

Transparency on where plows are, where they've been, and where they are headed. lack of transparency lends towards negative public opinion

Store snow in car lanes and not exclusively on sidewalks

Revisit sidewalks after road crews bury them

Audit sidewalks instead of waiting for complaints

Consider lane reductions when snow storage is needed - not storing snow in sidewalks

Clear ice from sidewalks esp fall and spring

Prioritize bus routes

Use appropriate equipment for road, highways vs urban

14

Sidewalk: Instructions

You're on a walk in the winter near your house...

On your most used sidewalks or separated paths, do you know the difference between which roads are local and which are state (maintained and/or owned)

3.9

No clue

Know everything

How QUICKLY do STATE sidewalks and path on that walk/bike get cleared?

How QUICKLY do STATE sidewalks and path on that walk/bike get cleared?

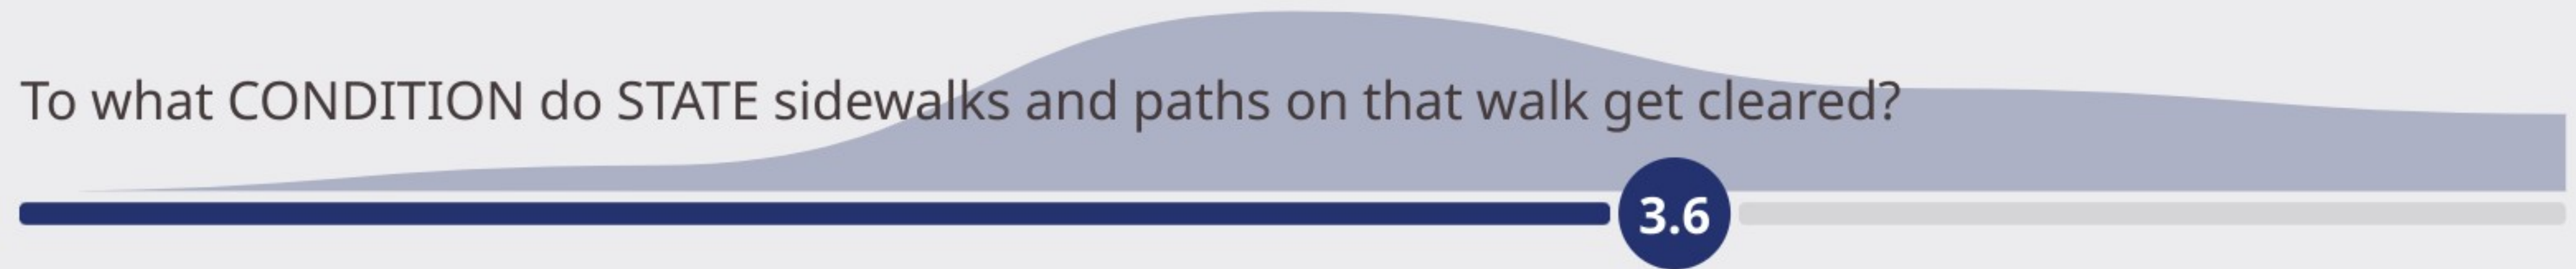

done before the sun is up

takes too long to count

To what **CONDITION** do **STATE** sidewalks and paths on that walk get cleared?

To what **CONDITION** do **STATE** sidewalks and paths on that walk get cleared?

smooth like butter

impassable snow mounds

What **OTHER THAN MORE FUNDING** would you recommend the **STATE** do to clear sidewalks and path more **QUICKLY** and/or to a better **CONDITION**?

More staff

Don't compact road snow on sidewalks

more operators

Get it done

Stop using sidewalks for road snow storage

Store snow in places that do not block walking and rolling

Clear them sooner

Have staff walk and bike the pathways/sidewalks they clear

12

What **OTHER THAN MORE FUNDING** would you recommend the **STATE** do to clear sidewalks and path more **QUICKLY** and/or to a better **CONDITION**?

Build roads that include snow storage so sidewalk blowers aren't spending all their time dealing with the mess from the road

Slow speed plowing that doesn't throw snow onto sidewalks.

Removal of ankle busting footprint ice after a thaw event.

Revisit sidewalks to clear road snow pushed onto them

Use blades plowing rather than snow blowers. Design side paths to be able to be bladed.

Remove ice

Clear berms at side streets

Clear bus stops

12

What **OTHER THAN MORE FUNDING** would you recommend the **STATE** do to clear sidewalks and path more **QUICKLY** and/or to a better **CONDITION**?

Some kind of Service Level Agreement, SLA for clearing Sidewalks , see C Street , Fireweed, that aren't on the map also how to add streets that have Public Transportation to the map

Site snow on excess road lanes

Mitigation of ankle busting footprint ice after a thaw event

Adjust design standards for better consideration for snow clearing equipment
