

## **SECTION 4**

### **AIRCRAFT OPERATIONS**

#### **4.6 NOISE ABATEMENT PROCEDURES** *(rev. 4/2010)*

Noise abatement procedures apply to all turbojet/turbofan aircraft, and all other aircraft with a CGMTOW of 11,500 lbs. or more, with two (2) or more engines. Between the hours of 2200 and 0800 Local, aircraft will utilize runway 02L for arrivals and 20R for departures, when the wind is not an operational factor.

Extended, high power engine runs by large or heavy aircraft will not be conducted between the hours of 2200 and 0800 Local. Should these engine runs be necessary, they must be conducted on the South Cargo Apron (see above).
