

FAIRBANKS NORTH WINTER: **FNW ATTACHMENT**

During the period from October 1 to April 15

WEEKEND MOVEMENT

The normal weekend restrictions (No movement after 12:00 noon on Saturday or anytime on Sunday) for vehicles or vehicles with load over 10'6" in width, front overhangs greater than 10', rear overhangs greater than 4', overall lengths greater than 85', and heights greater than 17' **DO NOT APPLY NORTH OR EAST OF THE FOX WEIGH STATION ON THE STEESE, ELLIOTT, OR DALTON HIGHWAYS.**

1. Southbound movements originating north or east of the Fox Weigh Station may continue to a destination within the Fairbanks urban area (described as the area within the boundaries of the Ester, Richardson, and Fox Weigh Stations).
2. Northbound movements originating in the Fairbanks urban area and proceeding to a destination north or east of the Fox weigh Station may start their moves.
3. Vehicles or vehicles with loads exceeding the aforementioned dimensions are PROHIBITED from making cross town movements for deliveries or pick up loads within the Fairbanks urban area.

PILOT/ESCORT VEHICLES

1. When one (1) pilot/escort vehicle is specified on the permit, that pilot/escort vehicle is not required for that portion of the move which is **north of Coldfoot (MP 175)** on the Dalton Highway except when the single unit (load or semi-trailer) length is greater than 80' in length or **unless** specifically noted otherwise on the face of the permit.
2. When two (2) pilot/escort vehicles are specified on the permit AND the single unit (load or semi-trailer) length is less than or equal to 65' OR the overall length is less 120', then one of the pilot/escort vehicles is not required for that portion of the move which is **north of Coldfoot (MP 175)** on the Dalton Highway **unless** specifically noted otherwise on the face of the permit.
3. When three (3) or more pilot/escort vehicles are specified on the permit then one (1) of the pilot/escort vehicles is no longer required for that portion of the move which is **north of Coldfoot (MP 175)** on the Dalton Highway, **unless** specifically noted otherwise on the face of the permit.
4. When the entire move takes place **north of Coldfoot (MP 175)** on the Dalton Highway the correct number of required pilot/escort vehicles will be specified on the permit based on the above factors.

STRETCH TRAILERS

1. Empty moves of stretch trailers over 53' in length returning from points north of Livengood (MP 70.8) on the Elliott Highway or east of Poker Flat (MP 29.5) on the Steese Highway may obtain a permit in the stretched out position (as far south as Fairbanks) when the temperature is below 20 degrees Fahrenheit based on the temperatures given in the current Winter Road Condition Report of the Department of Transportation and Public Facilities.
2. During this time period a one way move of over 400 miles may be given a maximum of five (5) days in which to complete a return move. *If the original move was delayed or took longer than the five (5) days then a new permit is required for the return move.*

HOURS OF DARKNESS

1. During the time period from November 11 through January 31 vehicles or vehicles with load that are OVERSIZE and moving north of the Arctic Circle (MP 115.3) on the Dalton Highway **MUST MEET ALL OF THE REQUIREMENTS SPECIFIED ON ATTACHMENT HD: HOURS OF DARKNESS OR HAVE AN APPROVED LIGHTING PLAN.**
