

Angoon Ferry Terminal Modifications Design & Construction

Proposed Activities

- » Relocate one (1) existing dolphin.
- » Install three (3) new dolphins along the existing fender line to accommodate the Alaska Class Ferry vessel.
- » Modify the fender line on one (1) existing dolphin from a floating donut fender to a fixed panel fender.
- » Convert the existing electrical lift system for the intermediate ramp to a hydraulic lift system.
- » Make other improvements as needed to the transfer bridge and uplands.

Anticipated Timeline

Construction is anticipated to begin in late fall 2026 and continue through 2027.

Service Impacts

During construction, there may be a potential closure for up to three (3) months.
