

# Angoon Ferry Terminal Modifications Project

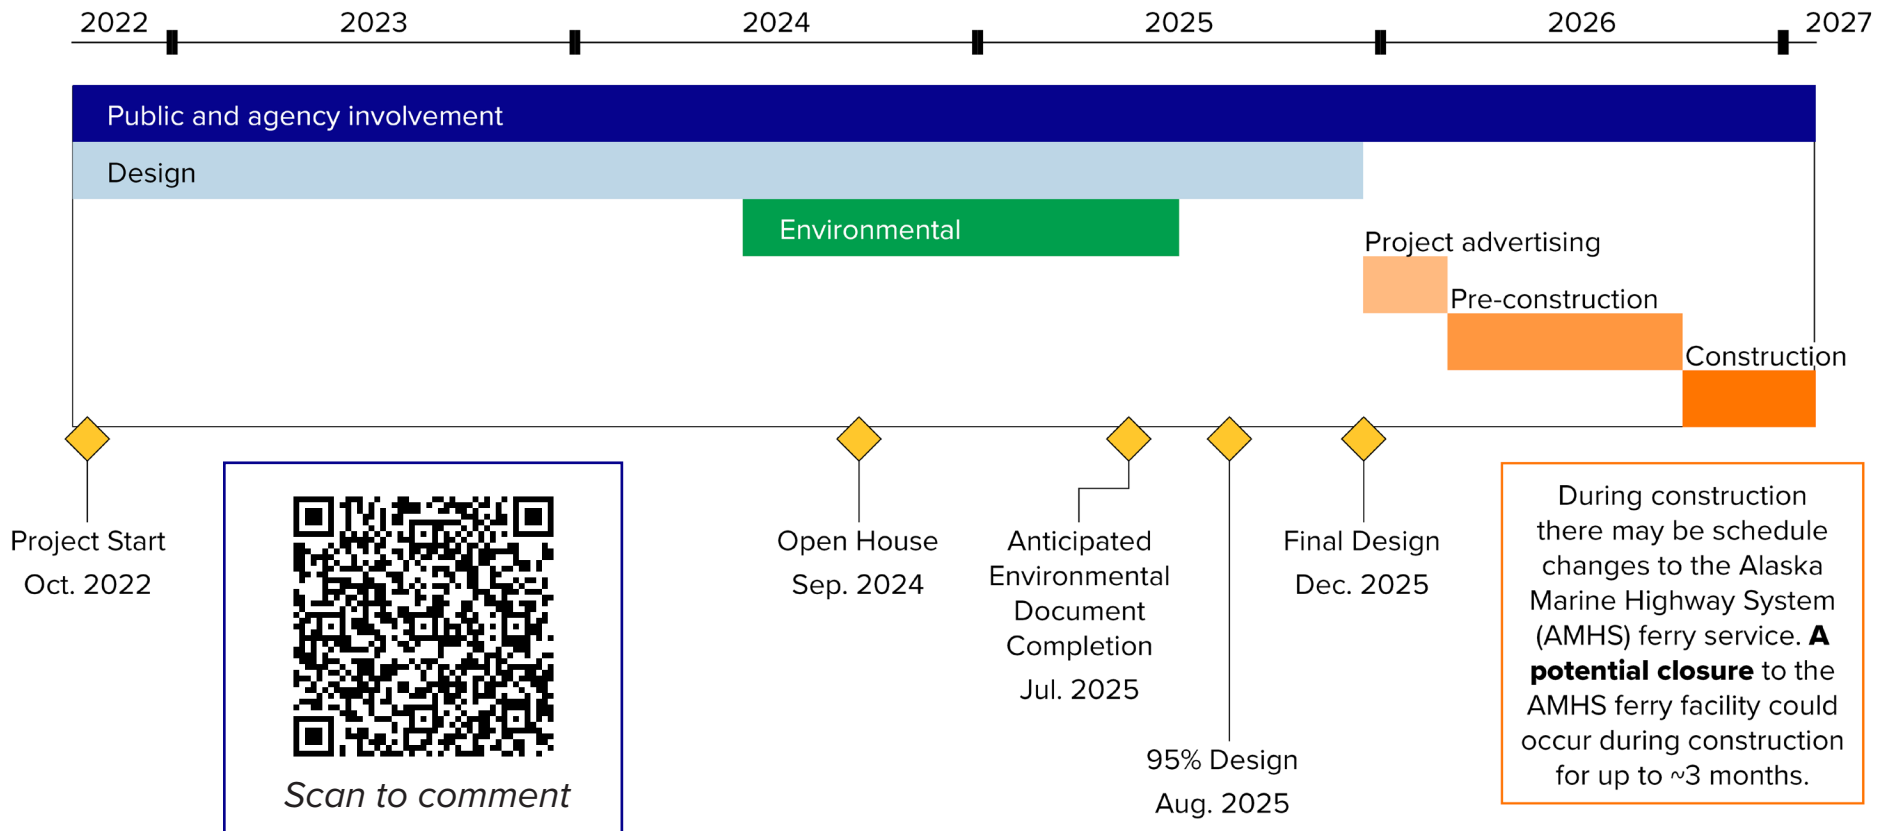

State #SFHWY00466 | Federal #0003288

## Project Description

DOT&PF, in coordination with the Federal Transit Administration (FTA), is proposing to make modifications to the existing ferry terminal in Angoon, Alaska. The purpose of this project is to update the Angoon Ferry Terminal to be able to accommodate the newly built Alaska Class Ferry (ACF) vessels that are operational in Southeast Alaska.

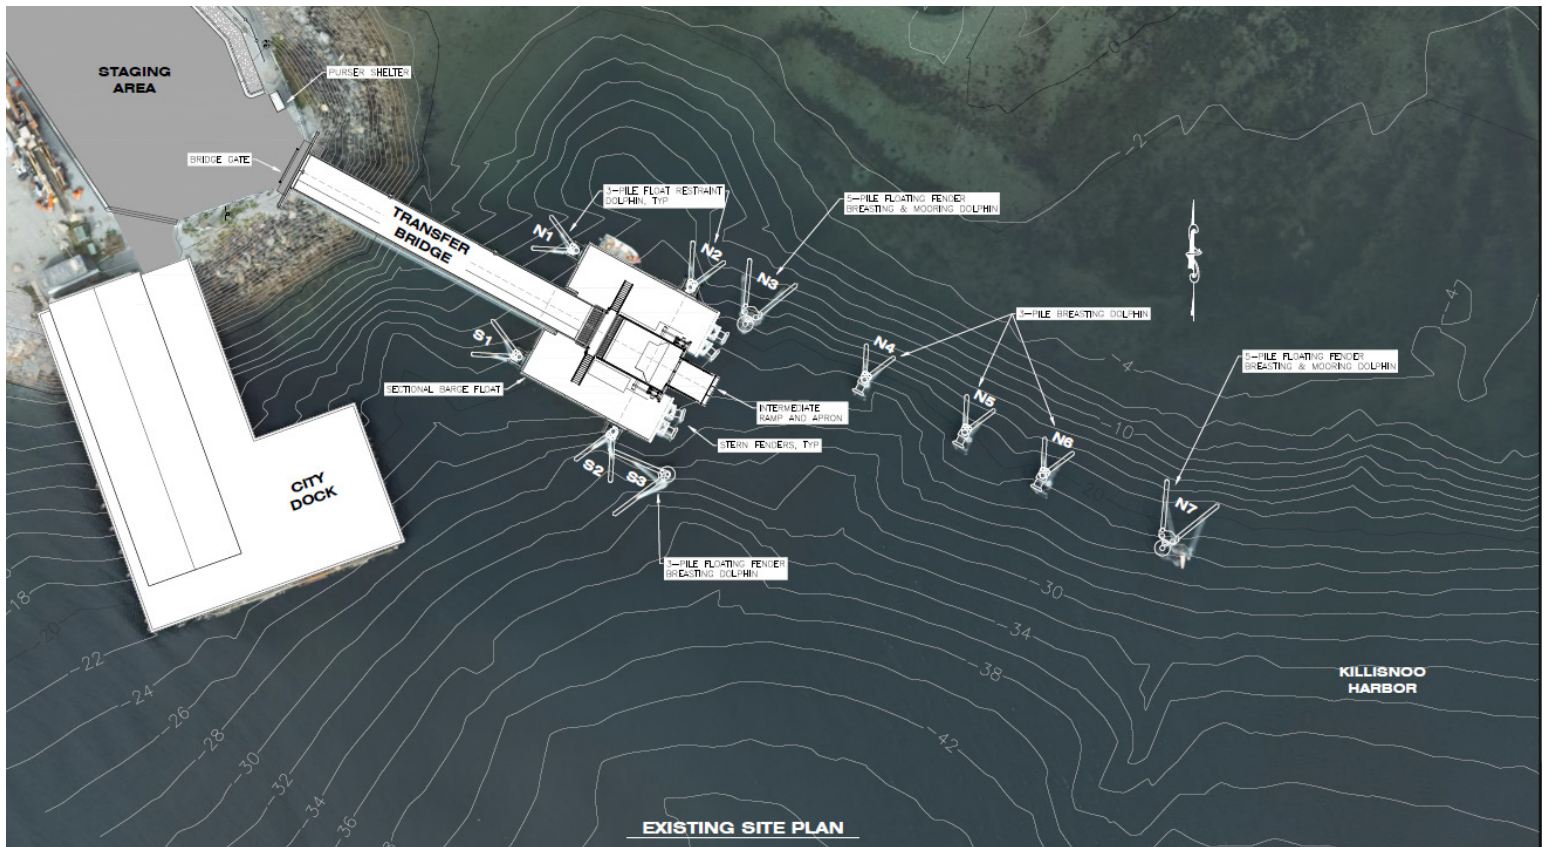

## Project Timeline *Dates subject to change at any time.*

## Proposed Activities

- » Relocate one (1) existing dolphin.
- » Install three (3) new dolphins along the existing fender line to accommodate the Alaska Class Ferry vessel.
- » Modify the fender on one (1) existing dolphin from a floating donut fender to a fixed panel fender.
- » Convert the existing electrical lift system for the intermediate ramp and apron to a hydraulic lift system.
- » Make other improvements, as needed to the transfer bridge and uplands.

## Angoon Ferry Terminal Site Plan

## Planned Environmental Consultations

- » Section 7 of the Endangered Species Act (National Marine Fisheries Service (NMFS))
- » Incidental Harassment Authorization (NMFS and U.S. Fish and Wildlife Service)
- » Essential Fish Habitat Assessment (NMFS)
- » Section 106 of the National Historic Preservation Act
