Form 25D-62B-U Instructions:

1. Enter the project name, state number, and federal project number as they appear on the Agreement.
2. Enter the name of the Supplier/Manufacturer providing the identified materials.
3. Use a description that allows identification of the item in the retained documentation and at the project site.
4. Do not enter a generic description like “all required”. Use a quantity that matches the amount represented and retained documentation used to certify cost on form 25D-60B-U.
5. Choose either “domestic” or “non-domestic or unknown origin” as required by Appendix A to the Utility Agreement. Provide an updated form 25D-60B-U, when the cost of non-compliant material counts towards the contract Minimal Use or De Minimis allowance.
6. Check this column if the product is a wholly or predominantly iron or steel, or a combination of both as defined in Appendix A to the Utility Agreement.
7. Check this column if the product is a construction material as defined in Appendix A to the Utility Agreement.
8. Check this column if the product is a manufactured product as defined in Appendix A to the Utility Agreement.
9. Check this column if the product is precast concrete or intelligent transportation system (ITS) or other electronic hardware system cabinet or enclosure classified as a manufactured product.
10. Manufactured products must be “manufactured in the United States”, meaning final assembly of the product occurred in the United States.
11. Check this column if FHWA has issued a project-specific waiver for the product.
12. Keep a copy of the waiver with the retained documentation when the non-compliant material is subject to an applicable waiver.
13. Attach additional form sheets if necessary to include more items.
14. Both Manufacturer or Supplier Authorized Representative and Utility Company’s Authorized Representative signatures are required.
