**GENERAL NOTES:**

1. Details shown are to indicate general design only. Dimensions may vary slightly among the manufacturers.
2. Gate fabric shall be of the same design and height of the fence fabric.
3. Gate fabric shall be furnished with knuckle salvage top and bottom.
4. Concrete foundations shall be of the same depth as end posts with a diameter 1/2 times larger except as shown for gate stop.
5. Gate frames may be fabricated by welding or riveting and shall be braced to eliminate sagging. Hinges, latches and other gate appurtenances shall be of sufficient strength and design to assure easy trouble free operation.
