SUBJECT: Chief Engineer Transmittal –
2015 ASDS

Incorporate the 2015 Alaska Sign Design Specifications (ASDS) on highway projects advertising after March 15, 2015. Maintenance and Operations activities should incorporate the 2015 ASDS immediately when manufacturing or ordering new signs. Sign inventory created using previous ASDS editions should be used first to maximize state investment.

The 2015 ASDS consists of the 2015 ASDS Supplement, the federal 2004 Standard Highway Signs manual, and the federal 2012 Standard Highway Signs Supplement.

The 2015 Alaska Sign Design Specifications are available online at:
