

SPECIAL NOTICE TO BIDDERS

Domestic Materials Preference Provision. Effective for Federal award obligations after October 23, 2023, meet the requirements at 2 CFR 184 for construction materials.

Iron and steel products remain subject to the requirements of 23 CFR 635.410 and related FHWA Interpretations and waivers.

All Manufactured Products must be manufactured in the United States (final assembly requirement) effective October 1, 2025. On August 16, 2023, USDOT issued a waiver at 88 FR 55817 applicable to construction materials and manufactured products on FHWA funded projects.

HSP20-7B revises the specifications in 106-1.01 to incorporate these new requirements.
