

**Semiannual Statewide Tracking of Tier 1 and Tier 2 Undertakings
October 1, 2024 to March 31, 2025**

**Prepared by the Alaska Department of Transportation and Public Facilities
for submission to the Federal Highway Administration Alaska Division
and the Alaska State Historic Preservation Officer**

I. Background

The First Amended *Programmatic Agreement among the Federal Highway Administration, the Advisory Council on Historic Preservation, the Alaska State Historic Preservation Officer, and the Alaska Department of Transportation and Public Facilities Regarding Implementation of Section 106 of the National Historic Preservation Act for the Federal-Aid Highway Program in Alaska* (Section 106 PA) went into effect on November 1, 2017.

The Section 106 PA can be found at the DOT&PF Statewide Environmental Office Historic Properties website <http://www.dot.state.ak.us/stwddes/desenviron/resources/historicproperties.shtml> under the heading *Programmatic Agreements, Section 106 FHWA*.

The Section 106 PA establishes two tiers of Programmatic Allowances for certain undertakings with low potential to affect historic properties. They do not require further consultation under Section 106, but are reported on a semi-annual basis.

II. Reporting Requirements

This report documents the *Stipulation IX.D.1 Tiers 1 and 2 Project Tracking* requirements. The *Stipulation IX.D.1* states that:

On a semiannual basis, the SEO PQI will compile a statewide tracking list of the Tier 1 and Tier 2 undertakings that were processed during the previous six (6) month period (October 1 – March 31 and April 1 – September 30). The list will be based on tracking information provided by the Regional PQIs, with a breakout according to assigned and non-assigned Program undertakings. The Statewide Environmental Program Manager will submit the tracking information to the FHWA and the SHPO by the end of the following month (submitted by April 30 and October 31).

The appended tracking list provides the following information:

- Project Name
- Alaska State Accounting System Number (AKSAS)
- Federal Project Number

- Process Type: indicates whether it is a new project, an update, or a geotechnical investigation.
- Applicable Tier 1 and 2 Activities: documentation numbers identify specific Tier 1 and Tier 2 Allowance project activities from the tables of the Section 106 PA *Appendix B Programmatic Allowances*.
- Review Screening Record Approval Date: indicates PQI signature date of project screening qualification approval (documented in the project file on the Streamlined Project Review form Section 106 PA *Appendix C*).
- Project Description

The list is organized according to DOT&PF region.

Region Name	Project Name	Project Number	Federal Project Number	Process Type	Applicable Tier 1 and Tier 2 Activities	Review Screening Record Approval Date
Central	AMATS: Hillside Drive Resurfacing - DeArmoun Rd to Abbott Rd	CFHWY00844	0505002	Project Update	1.a, 2.c, 2.d, 2.g, 2.h, 2.i	01/23/2025

This update decreases the APE to exclude Hillside Park, located at the junction of Abbott Rd. and Hilltop Ski Area Road. Originally the APE overlapped with a small part of the Hillside Park parking lot east entrance. The APE has since been adjusted to align with DOT ROW at the parking lot entrance.

Central	Seward Hwy MP 90-99 Pavement Preservation & Camp Rd Culvert Repair	CFHWY00850	OA31066	Project Update	2.d	02/12/2025
---------	---	-------------------	----------------	-----------------------	------------	-------------------

This update adds additional culvert repair or replacement on Camp Road in Whittier, Alaska. This location is in addition to the APE depicted in the original project description.

Central	Abbott Rd Pavement Preservation: New Seward Hwy to Lake Otis Pkwy	CFHWY01010	0506007	New Project	1.a, 1.d, 1.e, 1.f, 2.c, 2.g, 2.h, 2.i, 2.q	02/03/2025
---------	--	-------------------	----------------	--------------------	--	-------------------

The proposed project would resurface a section of Abbott Road from New Seward Highway to Lake Otis Parkway. Additional work may include:

- Replacement or installation of:
 - Medians, curb ramps, sidewalks, shared-use pathways, and pedestrian facilities (including ADA improvements)
 - Signs, roadside hardware, and striping
- Evaluating the structural section
- Improvements to drainage facilities including ditches, storm drains, and culverts
- Improvements to lighting
- Relocating or adjusting utilities
- Vegetation clearing and grubbing

Section 106 Programmatic Agreement
Semi-Annual Report on Tier 1 and Tier 2 Undertakings
Central Region
10/1/2024 - 3/31/2025

Region Name	Project Name	Project Number	Federal Project Number	Process Type	Applicable Tier 1 and Tier 2 Activities	Review Screening Record Approval Date
Central	HSIP: Anchorage Signalized Intersection Cameras	CFHWY01218	0001797	New Project	1.i, 2.I	11/26/2024

DOT&PF in partnership with the Municipality of Anchorage (MOA) and Anchorage Police Department (APD) proposes to install traffic signal cameras at all 82 existing signalized intersections in Anchorage where they currently do not exist. At these intersections, 71 of the traffic signal systems are owned by DOT&PF and 11 are owned by MOA. The proposed camera systems can capture video footage on each leg of the intersection as well as zoom in as needed. APD intends to use these captured videos and images to enforce hit-and-run driving laws, with the goal of reducing the quantity and severity of hit-and-run crashes in Anchorage. The proposed project may include aboveground utility work and upgrades

Central	ITS-M&O: Intelligent Transportation Systems Maintenance & Operations (FFY25-27)	CFHWY01219	0106135	New Project	1.i	02/20/2025
---------	--	-------------------	----------------	--------------------	------------	-------------------

The Data Modernization and Innovation (DMIO) program includes fostering partnerships and implementing emerging technologies for intelligent transportation systems. The program will modernize existing systems, develop new systems, and build digital products to educate the public while working closely with stakeholders to prepare for the transportation system of the future. This program includes transportation asset management, 511, AASHTOware, Crash Data Analysis and Reporting, Federal Aid System Updates, Intelligent Transportation System (ITS), Road Weather Information System (RWIS), Weigh In Motion, Statewide Highway Data Equipment, and others.

Central	CR25 Anchorage District NHS Preservation	CFHWY01242	Pending	New Project	1.a, 1.b, 1.d, 1.e, 2.a, 2.b, 2.c, 2.d	11/14/2024
---------	---	-------------------	----------------	--------------------	---	-------------------

This preventative maintenance project will include the application of pavement markings; application of crack sealant, repaving, cleaning and reconditioning of ditches; repair and replacement of lighting components; application of surface aggregate, dust palliative, and asphalt; brush cutting and clearing of debris; cleaning storm drain structures; constructing a storm drain sediment management facility (gravel pad to separate sediment from melting snow).

Central	CR25 Matanuska-Susitna District NHS Preservation	CFHWY01243	Pending	New Project	1.a, 1.b, 1.d, 1.e, 2.a, 2.b, 2.c, 2.d	11/14/2024
---------	---	-------------------	----------------	--------------------	---	-------------------

This preventative maintenance project will include the application of pavement markings; application of crack sealant; cleaning and reconditioning of ditches; repair and replacement of drainage culverts; repair and replacement of lighting components; application of surface aggregate, dust palliative, and asphalt; and cleaning storm drain structures.

Section 106 Programmatic Agreement
Semi-Annual Report on Tier 1 and Tier 2 Undertakings
Central Region
10/1/2024 - 3/31/2025

Region Name	Project Name	Project Number	Federal Project Number	Process Type	Applicable Tier 1 and Tier 2 Activities	Review Screening Record Approval Date
Central	CR25 Peninsula District NHS Preservation	CFHWY01244	Pending	New Project	1.a, 1.b, 1.d, 1.e, 2.a, 2.b, 2.c, 2.d	11/14/2024
This preventative maintenance project will include the application of pavement markings; application of crack sealant; cleaning and reconditioning of ditches; repair and replacement of drainage culverts; repair and replacement of lighting components; application of surface aggregate, dust palliative, and asphalt; brush cutting and clearing of debris; and cleaning storm drain structures.						
Central	CR25 Anchorage District Non-NHS Preservation	CFHWY01245	Pending	New Project	1.a, 1.b, 1.d, 1.e, 2.a, 2.b, 2.c, 2.d	12/4/2024
This preventative maintenance project will include the application of pavement markings; application of crack sealant, repaving, cleaning and reconditioning of ditches; repair and replacement of lighting components; application of surface aggregate, dust palliative, and asphalt; brush cutting and clearing of debris; and the cleaning of storm drain structures, the construction and operation of a storm drain sediment management facility (a culvert drainage structure designed to separate water from debris in melting snow and ice), and the treatment of drain cleaning material (solids and liquids).						
Central	CR25 Mat-Su District Non-NHS Preservation	CFHWY01246	Pending	New Project	1.a, 1.b, 1.d, 1.e, 2.a, 2.b, 2.c, 2.d	12/4/2024
This preventative maintenance project will include the application of pavement markings; application of crack sealant, repaving, cleaning and reconditioning of ditches; repair and replacement of lighting components; application of surface aggregate, dust palliative, and asphalt; brush cutting and clearing of debris; and the cleaning of storm drain structures.						
Central	CR25 Peninsula District Non-NSH Preservation	CFHWY01247	Pending	New Project	1.a, 1.b, 1.d, 1.e, 2.a, 2.b, 2.c, 2.d	12/4/2024
This preventative maintenance project will include the application of pavement markings; application of crack sealant, repaving, cleaning and reconditioning of ditches; repair and replacement of lighting components; application of surface aggregate, dust palliative, and asphalt; brush cutting and clearing of debris; and the cleaning of storm drain structures.						
Central	CR25 Southwest District Non-NHS Prevention	CFHWY01248	Pending	New Project	1.a, 1.b, 1.d, 1.e, 2.a, 2.b, 2.c, 2.d	12/4/2024
This preventative maintenance project will include the application of pavement markings; application of crack sealant, repaving, cleaning and reconditioning of ditches; repair and replacement of lighting components; application of surface aggregate, dust palliative, and asphalt; brush cutting and clearing of debris; and the cleaning of storm drain structures.						

Region Name	Project Name	Project Number	Federal Project Number	Process Type	Applicable Tier 1 and Tier 2 Activities	Review Screening Record Approval Date
Central	CR25 Bridge NHS Preservation	CFHWY01249	Pending	New Project	1.b, 1.e, 1.h, 1.l, 1.m, 1.n, 1.o, 1.p, 1.q, 1.r, 2.b, 2.c, 2.e, 2.f, 2.o	11/15/2024

Preservation activities to extend the service life of bridge surfaces and ensure the proper performance of bridges. Proposed work may include:

- Approach rail repair and/or replacement
- Cleaning and repair or replacement of expansion joints
- Brush control
- Concrete spall repairs
- Replacement of object markers and signs
- Cleaning deck, curbing, and bearings
- Repairing impact damage
- Deck patching
- Repair/replacement of bolts
- Painting over graffiti
- Repairing approaches and pedestrian transition
- Installation of new membranes and deck resurfacing
- Debris removal at piers and around guardrail
- Repairing girders
- Erosion control at approach shoulders and rails
- Replacement of wood decks
- Repairing sub-decks
- Erosion control around abutments, ditches, and behind guardrail
- Scupper and downspout extension to redirect runoff
- Replacement of existing dry stack retaining wall
- Abutment gap repairs

Region Name	Project Name	Project Number	Federal Project Number	Process Type	Applicable Tier 1 and Tier 2 Activities	Review Screening Record Approval Date
Central	CR25 Bridge Non-NHS Preservation	CFHWY01250	Pending	New Project	1.b, 1.e, 1.h, 1.l, 1.m, 1.n, 1.o, 1.p, 1.q, 1.r, 2.b, 2.c, 2.e, 2.f, 2.o	11/25/2024

Preservation activities to extend the service life of bridge surfaces and ensure the proper performance of bridges. Proposed work may include:

- Approach rail repair and/or replacement
- Cleaning and repair or replacement of expansion joints
- Brush control
- Concrete spall repairs
- Replacement of object markers and signs
- Cleaning deck, curbing, and bearings
- Repairing impact damage
- Deck patching
- Repair/replacement of bolts
- Painting over graffiti
- Repairing approaches and pedestrian transition
- Installation of new membranes and deck resurfacing
- Debris removal at piers and around guardrail
- Repairing girders
- Erosion control at approach shoulders and rails
- Replacement of wood decks
- Repairing sub-decks
- Erosion control around abutments, ditches, and behind guardrail
- Scupper and downspout extension to redirect runoff
- Replacement of existing dry stack retaining wall
- Abutment gap repairs

Region Name	Project Name	Project Number	Federal Project Number	Process Type	Applicable Tier 1 and Tier 2 Activities	Review Screening Record Approval Date
Central	Kenai Peninsula and Southwest Areawide Drainage Improvements FY24	CFHWY01256	Pending	New Project	1.d	02/26/2025

Fieldwork will inventory drainage structures and document issues along DOT roads throughout the Kenai Peninsula and Southwest Districts by documenting current conditions to develop a GIS map.

Central	Seward Hwy & Alyeska Hwy Intersection Improvements	Z546190000	Pending	Geotech	2.q	12/20/2024
---------	--	------------	---------	---------	-----	------------

The geotechnical work will consist of completing eleven borings to collect samples of subsurface materials along the project's proposed alignment to gain information subsurface conditions needed to design and construct the project.

Central	Anton Anderson Memorial (Whittier) Tunnel Backup Generators	Z580270000	0496013	New Project	2.a, 2.c, 2.g, 2.l	10/31/2024
---------	---	------------	---------	-------------	--------------------	------------

The project will upgrade current emergency power capabilities at the Anton Anderson Memorial (Whittier) Tunnel by installing two new backup generators, one on the Bear Valley side at MP 1.1296 near the tunnel entrance and one on the Whittier side at MP 4.444. In addition to generator installation, the proposed project may include:

- Removal and replacement of existing concrete pads, and installation of new concrete pads.
- Installation of new service/ drive pad, concrete modular block retaining wall, and ditch realignment on the Whittier Portal side.
- Installation of aboveground fuel dispensing tanks.
- Minor removal, replacement and installation of new asphalt pavement associated with underground utility work and configuration of new concrete pads for the generators and fuel tanks.
- Underground and aboveground utility work and upgrades.
- Vegetation clearing and grubbing.

Section 106 Programmatic Agreement
Semi-Annual Report on Tier 1 and Tier 2 Undertakings
Northern Region
10/1/2024 - 3/31/2025

Region Name	Project Name	Project Number	Federal Project Number	Process Type	Applicable Tier 1 and Tier 2 Activities	Review Screening Record Approval Date
Northern	Chena Ridge Road and Chena Pump Road Resurfacing	NFHWHY00570	0645015	Project Update	1.a, 1.e, 1.f, 2.a, 2.c	10/18/2024

This UPDATE modifies the original project APE to include Geist Road to mile point 1.126 and the Parks Highway on/off ramps, not including the Parks Highway. Project activities within the updated APE would be consistent with those described in streamlined review documentation submitted 09/24/2021. Project activities within the updated APE include reapplication of pavement markings, upgrading approaches, replacement of signs and guardrails, and vegetation removal to the toe of slope and at guardrail locations.

All project activities including proposed staging areas and driveway approaches are within the existing road ROW and road easement.

Northern	Richardson Highway MP 214-218 Reconstruction	NFHWHY00655	0724028	Project Update	2.q	01/06/2025
----------	--	-------------	---------	----------------	-----	------------

This project update is to conduct geotechnical foundation investigations for the replacement of three bridges within the Richardson Highway MP 214-218 Reconstruction Project. These investigations are designed to characterize the subsurface conditions at Bridges Nos 581 (Upper Miller Creek), 582 (Lower Miller Creek), and 583 (Castner Creek) to assist in the planning of structural foundation of the replacement bridges. The geotechnical investigation exploration plan is included with this documentation.

Northern	Parks Hwy Nenana River Bridge at Rex #0216 Replacement	NFHWHY00788	Pending	Project Update	2.q	01/22/2025
----------	--	-------------	---------	----------------	-----	------------

Geotechnical testing will be conducted on the Nenana River Bridge at Rex Crossing (Bridge No. 216) near MP 276 of the Parks Highway using a CME 85 truck-mounted drill rig. The test holes will be drilled using a downhole air hammer with two abutment and two pier test holes to a depth of 150-feet below ground surface, and two approach test holes to a depth of 75-feet below ground surface. Samples will occur every 5-feet for the first 50-feet, then every 10-feet to the bottom of the hole.

Northern	Parks Hwy Nenana River Bridge at Rex #0216 Replacement	NFHWHY00788	Pending	Project Update	2.l	02/27/2025
----------	--	-------------	---------	----------------	-----	------------

This update is to account for the relocation of existing overhead utilities to allow for the construction of the diversion bridge. The utilities will be relocated within the existing right-of-way.

Section 106 Programmatic Agreement
Semi-Annual Report on Tier 1 and Tier 2 Undertakings
Northern Region
10/1/2024 - 3/31/2025

Region Name	Project Name	Project Number	Federal Project Number	Process Type	Applicable Tier 1 and Tier 2 Activities	Review Screening Record Approval Date
Northern	FAST Area Surface Improvements FFY2025	NFHWHY00913	Pending	New Project	1.a, 1.e, 2.a, 2.c, 2.d, 2.g	10/18/2024

The project will improve several areas in North Pole and Fairbanks.

Improvements in North Pole will include pavement rehabilitation, surface upgrades, and replacement of traffic calming elements. Areas to be improved include E. 4th Ave, North Pole High School Blvd, Chena Lakes Recreation Area South Lake Loop & Peninsula, and Andrea.

Improvements in Fairbanks will include pavement rehabilitation, surface upgrades, installation of safety elements, cleaning and reconditioning ditches, replacement of signs, vegetation clearing, reapplication of pavement markings, application of new pavement markings, drainage improvements/upgrades. Areas to be improved include Tesoro, Chena River, Davis Road, Farmer's Loop Path, Skarland Winter Trail Access, Mitchell Expressway, Doyon Estates, 8th Ave., and W. Tanana Drive.

Northern	DALTON HWY MP 247-289 AND MP 305-362 DELINEATOR RPLMT (HSIP)	NFHWHY00947	Pending	New Project	1.f	01/07/2025
----------	---	--------------------	----------------	--------------------	------------	-------------------

The Project will replace the existing reflective sheeting with new Type XI reflective sheeting on the existing delineator supports along the Dalton Highway between MP 247 & 289, and MP 305 & 362. Delineators and associated supports will be repaired or replaced as necessary. All work will be occurring in existing locations, using similar materials and no new ground disturbance will be occurring.

Northern	Parks Highway MP 168 Hurricane Railroad Crossing Upgrades (HSIP)	NFHWHY00954	Pending	New Project	1.a, 1.e, 2.j, 2.l	02/20/2025
----------	---	--------------------	----------------	--------------------	---------------------------	-------------------

This project will replace railroad infrastructure at the Alaska Railroad at-grade crossing between Milepost (MP) 168 & 169 of the Parks Highway. Activities include replacement of railroad ties, rail, concrete panels, resurfacing, reapplying pavement markings on portions of the road that approach the crossing, and removal/repair/replace signage. Replace/upgrade solar array, battery bank, and backup generator will be installed to power the crossing.

Region Name	Project Name	Project Number	Federal Project Number	Process Type	Applicable Tier 1 and Tier 2 Activities	Review Screening Record Approval Date
Northern	Dalton Highway Yukon River Bridge #0271 Redecking	NFHWHY00983	Pending	New Project	1.i, 1.o	11/21/2024

This project will be replacing the wearing surface and the expansion joints of the Yukon River Bridge (#0271) located between MP 55 and MP 56 of the Dalton Highway. The bridge surface will be replaced with 2 new layers of timber wearing surface and the expansion joints will be replaced at either end of the bridge.

Northern	Copper River Highway MP 2.4 Drainage Improvements	NFHWHY00984	Pending	Project Update	1.a, 2.c, 2.d, 2.e	11/29/2024
----------	---	-------------	---------	----------------	--------------------	------------

The proposed Project will be installing four new 36-inch diameter culverts near MP 2.4 on the Copper River Highway to improve drainage in the area. Additional work includes installation of erosion control (rip rap) at inlet and outlet ends, resurfacing and restriping the road, and vegetation clearing in previously disturbed areas.

Northern	Copper River Highway MP 2.4 Drainage Improvements	NFHWHY00984	Pending	Project Update	1.d, 1.f	12/27/2024
----------	---	-------------	---------	----------------	----------	------------

This is an update to the streamlined review signed on 11/29/2024 includes cleaning of ditches from built up debris and replacement of guardrails. Project updates are shown in attached figure.

Northern	Parks Highway Nenana River at Moody #1143 Rehabilitation	NFHWHY00996	Pending	New Project	1.o	01/09/2025
----------	--	-------------	---------	-------------	-----	------------

The project will replace four (4) steel pins in the gusset plate, which ensures stability and strength of the joints. Replacement pins will be the same as replaced ones. All work is occurring below the deck on the bridge structure. No in-water work will occur. No ground disturbance is occurring.

Section 106 Programmatic Agreement
 Semi-Annual Report on Tier 1 and Tier 2 Undertakings
 Northern Region
 10/1/2024 - 3/31/2025

Region Name	Project Name	Project Number	Federal Project Number	Process Type	Applicable Tier 1 and Tier 2 Activities	Review Screening Record Approval Date
Northern	Northern Region FFY25 NHS Interstate Highway Preventative Maintenance and Repairs	NFHWHY01011	Pending	New Project	1.a, 1.b, 1.d, 1.e	11/25/2024

This annual PM Project will include maintenance and rehabilitation of paved roadways; application of pavement stripes and markings; stabilization and repair of shoulders and ditches; and cleaning of culverts, inlets and storm drains; repair and/or refurbishment of lighting systems. All work will be confined to the existing roadway embankment or structure and is intended to restore the system and its components to an as-built condition.

Northern	Northern Region FFY25 NHS Non-Interstate & CTP Highway Preventative Maintenance and Repairs	NFHWHY01012	Pending	New Project	1.a, 1.b, 1.d, 1.e	11/25/2024
----------	---	-------------	---------	-------------	--------------------	------------

This annual PM Project will include maintenance and rehabilitation of paved and gravel roadways; application of pavement stripes and markings and fog seal; stabilization and repair of shoulders and ditches; cleaning of culverts, inlets and storm drains; and repair and/or refurbishment of lighting systems. All work will be confined to the existing roadway embankment or structure, and is intended to restore the system and its components to an as-built condition.

Northern	Northern Region FFY25 NHS Interstate Bridge Preventive Maintenance and Repairs	NFHWHY01013	Pending	New Project	1.e, 1.m, 1.n, 1.o, 1.p, 1.q, 1.r	11/25/2024
----------	--	-------------	---------	-------------	-----------------------------------	------------

Northern Region National Highway System (NHS) Interstate Bridges PM project includes: replace compressions seals, remove spalled concrete on outrigger pier diaphragms, clean and coat exposed rebar, replace bridge identification plates, clean bridges, replace bridge rail post plate washers, and remove debris around piers.

Section 106 Programmatic Agreement
Semi-Annual Report on Tier 1 and Tier 2 Undertakings
Northern Region
10/1/2024 - 3/31/2025

Region Name	Project Name	Project Number	Federal Project Number	Process Type	Applicable Tier 1 and Tier 2 Activities	Review Screening Record Approval Date
Northern	Northern Region FFY25 NHS Non-Interstate & CTP Bridge Preventative Maintenance and Repairs	NFHWHY01014	Pending	New Project	1.b, 1.l, 1.m, 1.n, 1.o, 1.q, 1.r	11/26/2024

Annual Preventative Maintenance Northern Region National Highway System (NHS) Non-Interstate & Community Transportation Program (CTP) Bridge project. Activities include: remove and replace timber wearing surfaces, clean bridges, remove debris from piers and girders, reconnect chain link for pedestrian path, replace missing bolts in bridge rail, remove and replace pier diaphragm bolts, repair bridge rail studs and replace washers, remove loose concrete from back wall and wing walls, clean and coat exposed rebar, reattach bridge rail posts, clean and re-seal expansion joints, place fill under and in front of abutments, seal recessed deck bolts holes, replace damaged bull rails, repair backwall and wingwalls, and repair damaged piers.

Northern	Richardson Highway MP 0-7 Repaving	NFHWHY01041	Pending	New Project	1.a, 2.a	02/26/2025
----------	------------------------------------	-------------	---------	-------------	----------	------------

This project will resurface and restripe Richardson Highway between Milepost (MP) 0 & 7. Adjacent approaches aprons will be rehabilitated and brought up to current design standards. Material site for this project will be contractor furnished. No new ground disturbance is occurring.

Northern	Dalton Highway MP 90-104 High Float	NFHWHY01042	Pending	New Project	1.a, 2.a, 2.c	03/03/2025
----------	-------------------------------------	-------------	---------	-------------	---------------	------------

This project will resurface an existing segment of the Dalton Highway between MP 90 and 104. Adjacent approaches will be rehabilitated to current design standards. There will be vegetation clearing (with mechanical means, but no grubbing or disturbance of the mineral soil) in areas within 50 ft of the centerline which have been previously cleared. No new ground disturbance will be occurring.

Region Name	Project Name	Project Number	Federal Project Number	Process Type	Applicable Tier 1 and Tier 2 Activities	Review Screening Record Approval Date
Southcoast	PSG Areawide Chip Seal	SFHWHY00449	Pending	New Project	1.a, 1.e, 2.a	12/20/2024

The proposed project will design and construct a chip seal overlay on all areawide roads in Petersburg. Due to advanced weathering of the asphalt surface, portions of Mitkof Highway, Scow Bay Loop Road, Papke's Landing Road, and Three Lakes Loop Road will receive a "CABC" treatment. This treatment involves milling the surface of the road to the base course and reapplying a surface course which will subsequently receive a chip seal treatment. Ground disturbing activities would be confined to existing surfaces shoulder to shoulder.

Southcoast	JNU Pt. Stephens Culvert	SFHWHY00451	0003285	Project Update	2.a, 2.d	01/17/2025
------------	--------------------------	-------------	---------	----------------	----------	------------

The project proposes to proposing to replace culverts and address drainage issues in the Pt. Stephens neighborhood in Juneau. This will include the following activities:

- Remove three (3) existing culverts along Point Stephens Road and Point Stephens Spur Road,
- Install three (3) new culverts of equal or larger size along Point Stephens Road and Point Stephens Spur Road, and
- Clean and regrade the ditches connecting culverts for improved hydraulic connectivity

Southcoast	JNU Pt. Stephens Culvert	SFHWHY00451	0003285	Project Update	2.a, 2.d	02/21/2025
------------	--------------------------	-------------	---------	----------------	----------	------------

A streamlined 106 PA form for this project was completed and signed on January 17, 2025. This update includes the expansion of the Area of Potential Effect (APE) for additional work items occurring at specific driveway entrances.

Southcoast	FY25 Contractor Highway Striping	SFHWHY00625	Pending	New Project	1.a	03/19/2025
------------	----------------------------------	-------------	---------	-------------	-----	------------

This project will reapply pavement markings along select roadways using state forces in the following communities:
Haines, Juneau, Ketchikan, Petersburg, Skagway, Wrangell, and Yakutat.

Region Name	Project Name	Project Number	Federal Project Number	Process Type	Applicable Tier 1 and Tier 2 Activities	Review Screening Record Approval Date
Southcoast	FY25 State Forces Highway Striping	SFHWHY00626	Pending	New Project	1.a	02/05/2025

This project will reapply pavement markings along select roadways using state forces in the following communities: Juneau, Angoon, Gustavus, Haines, Hoonah, Iliamna, Kake, King Salmon, Kodiak, and Sitka.

Southcoast	Cold Bay (CDB) Dock Pile Repairs Project	SFHWHY00680	9500155	New Project	1.k	03/26/2025
------------	--	-------------	---------	-------------	-----	------------

This project will repair the piles at Bents 3, 30, and 42 by installing a structural steel patch with welding. The project will also repair a cracked weld that was identified at Bent 82. The repair or maintenance is limited to the use of similar materials to existing features.

Southcoast	Ketchikan Ferry Terminal Improvements Stage II	Z674660000	000S855	Project Update	2.n	02/07/2025
------------	--	------------	---------	----------------	-----	------------

This project update adds sewage and bilge line work.

Southcoast	KTN Tongass Ave Improvements	Z680910000	0902042	Project Update	2.g, 2.q	10/10/2024
------------	------------------------------	------------	---------	----------------	----------	------------

This project update includes the following activities associated with ADA improvements:

- Thinned sidewalk detail at a retaining wall,
- Revised driveway entrance at Ketchikan Indian Community (KIC),
- Addition of ADA bulb out details at select utility poles,
- Changes to the manhole adjustment details,
- Modified curb and gutter detail, and
- Geotechnical investigation needed to assist the installation of the traffic signal lights.

All updated activities are within the project's original APE.

Semi-Annual Report on Tier 1 and Tier 2 Undertakings
Statewide
10/1/2024 - 3/31/2025

Region Name	Project Name	Project Number	Federal Project Number	Process Type	Applicable Tier 1 and Tier 2 Activities	Review Screening Record Approval Date
Statewide	Tanana Ice Roads 2024	HFHWY00424	pending	New Project	1.a	12/20/2024

Maintain an approximately 5 mile ice road/ice bridge beginning at a pre-existing access area 1/4 of a mile above the Mission Hill Landing on the beach going straight across the Yukon River 0.4 miles to the Mission Island Sandbar and continuing East along the Mission Island sandbar to the Yukon River South bank and around the lower point on the outside of Six Mile Island, up around the upper point of Six Mile Island up to the pre-existing Tanana Highway Landing. The ice road connects the village of Tanana on the North bank of the Yukon River, with the terminus of the Tanana Highway on the South bank of the Yukon River. This connection will allow travelers to use the Tanana Highway to connect to the Elliott Highway in Manley Hot Springs and drive to Fairbanks as well as other villages. No new ground disturbance will occur.

Statewide	Napaimute ice road 2024	HFHWY00425	Pending	New Project	1.a	12/20/2024
-----------	-------------------------	------------	---------	-------------	-----	------------

Maintain an approximately 250 miles along the Kuskokwim river that connects to spur roads to adjacent communities. Route 1 of the Kuskokwim Ice Road begins at Bethel and ends at Kasigluk with spur roads to Napaskiak, Oscarville, Yuvvaq (traditional ice fishing area), Atmautlauk and Nunapitchuk; Route 2 begins at Bethel and ends at Kalskag with spur roads to Akiachak, Kwethluk, and Tuluksak; and Route 5 begins at Aniak and ends at Government Cabin. No new ground disturbance will occur.

Statewide	Kalskag Ice road 2024	HFHWY00437	Pending	New Project	1.a	12/20/2024
-----------	-----------------------	------------	---------	-------------	-----	------------

Maintain an approximately 34 mile ice road along the Kalskag River bank beginning at an existing access point near Kalskag and going east towards Aniak. The road will end at the existing access near Gregory's Fish Camp. No new ground disturbance will occur.

Statewide	Healy Lake Ice Road 2024	HFHWY00438	pending	New Project	1.a	12/20/2024
-----------	--------------------------	------------	---------	-------------	-----	------------

Maintain the ice road portion of an approximately 11 mile long travelway beginning at an existing access at Healy Lake Landing to the existing Healy Lake Winter Trail, ending at an existing access at the Native Village of Healy Lake. No new ground disturbance will occur.

Section 106 Programmatic Agreement
Semi-Annual Report on Tier 1 and Tier 2 Undertakings
Statewide
10/1/2024 - 3/31/2025

Region Name	Project Name	Project Number	Federal Project Number	Process Type	Applicable Tier 1 and Tier 2 Activities	Review Screening Record Approval Date
Statewide	Fort Yukon Ice Road 2024	HFHWY00439	Pending	New Project	1.a	12/20/2024

Maintain an approximately 90 mile ice road that would connect the communities of Fort Yukon and Circle on the Yukon River. Entrance and exit points would use the existing boat launches in both communities. No new ground disturbing activities or effects to the water column are occurring in association with the road's access, maintenance or use.

Statewide	Crooked Creek SIRA 2024	HFHWY00440	Pending	New Project	1.a	12/20/2024
-----------	-------------------------	------------	---------	-------------	-----	------------

Maintain an approximately 38 mile ice road between Government Cabin to Georgetown. The road will use existing entry and exit points near Georgetown and Crooked Creek and connect to the 250 mile Kuskokwim Ice Road. No new ground disturbing activities or effects to the water column are occurring in association with the road's access, maintenance or use.

Statewide	DENALI HIGHWAY TRAIL CLUB SNOWTRAILS FY25	PENDING66	Pending	New Project	1.a	02/04/2025
-----------	---	-----------	---------	-------------	-----	------------

The project includes snow clearing, ice management, trail upkeep, installation of non-ground disturbing trail markers and similar maintenance tasks. The identified grooming areas include the Denali Highway trails from mile marker 0 to 68, Maclaren River Road and Seven Mile Lake Trails. No new ground disturbance will occur.

Statewide	DENALI SNOWCAT SERVICES SNOWTRAILS FY25	PENDING67	Pending	New Project	1.a	02/04/2025
-----------	---	-----------	---------	-------------	-----	------------

The project includes snow clearing, ice management, trail upkeep, installation of non-ground disturbing trail markers and similar maintenance tasks. The identified grooming areas for Denali Snowcat Services are trails from mile marker 68 to 130 along the Denali Highway. No new ground disturbance will occur.
