MEMORANDUM

State of Alaska

Department of Transportation & Public Facilities **Division of Program Development**

TO: Marc Luiken

Commissioner

THRU: Mike Vigue, Director

Program Development

FROM: Sheila Good

STIP Manager

DATE: October 26, 2016

PHONE NO: 465-4070

FAX NUMBER: 465-6984

SUBJECT: Recommend Approval of

FMATS TIP Admin Mod #5

The FMATS Policy Committee approved Administrative Modification #5 to the FMATS 2015-2018 Transportation Improvement (TIP) on October 19, 2016.

In accordance with the agreement between FMATS and Alaska DOT&PF, the Fairbanks MPO coordinator and FMATS Policy Committee has determined Administrative Modification #5 to the FMATS 2015-2018 TIP has met all the requirements of US Code Title 23, Section 134 and is fiscally constrained by the allocations made in the 2016-2019 Statewide Transportation Improvement Program (STIP). An administrative modification does not require a new conformity determination per 23 CFR 405.104.

Your approval of Administrative Modification #5 to the FMATS 2015-2018 TIP is recommended and required as the statutory designee for all state transportation planning matters.

Date: 1//8/16 Approved: Mau S. Marc Luiken, Commissioner

Attachment: FMATS 2015-2018 TIP Admin Mod #5 with tables

State of Alaska Department of Transportation and Public Facilities Mr. Ryan Anderson, P.E. 2301 Peger Road Fairbanks, AK 99709

RE: Transmittal of FMATS' 2015 - 2018 TIP Administrative Modification #5

Dear Mr. Anderson:

Attached for approval and inclusion in the Statewide Transportation Improvement Program (STIP) is the Fairbanks Metropolitan Area Transportation System (FMATS) 2015 - 2018 Transportation Improvement Program (TIP) Administrative Modification #5. The FMATS Policy Committee approved this document on October 19, 2016. It was revised to initiate several projects such as the FMATS Sign Replacement Project, the North Pole Streetlight Standardization project, Airport Way Beautification, Transit Buses, Lathrop Street Extension and the FMATS Intersection Improvement program. This Administrative Modification was developed in conformance with 23 USC 134 and all applicable federal requirements for Metropolitan Planning Organizations and is financially constrained.

The remainder of the changes are also administrative nature. A Summary of Changes is attached but should only be used as a guide and not as an accounting document. All information on TIP is posted on our website at: http://fmats.us/programs/tip/, including the summary of changes.

Once the Governor's approval is received, we request TIP Administrative Modification #5 be included in the STIP, required under 23 U.S.C. 135. Your prompt attention to this task would be greatly appreciated by the MPO to facilitate timely obligation of FMATS' funding. Please notify the MPO Coordinator at donna.gardino@fmats.us when transmitting this TIP to DOT & PF Headquarters for inclusion in the STIP.

Sincerely,

Mayor Bryce Ward Policy Committee Chair

FMATS Policy Committee Action Items

CC: Margaret Carpenter, Northern Region, ADOT&PF

Policy Committee Action Items 10.19.16

Motion: To table the letter to the EPA indefinitely. (Koch/Fox). None opposed. Approved.

Motion: To forward the comments on the Alaska Statewide Long Range Transportation Plan with the inclusion of a discussion about military construction impacts. (Westlind/Kassel).

Amendment to the Motion: To include, in the discussion about new construction, the percent growth rate as opposed to the volume of growth rate. (Kassel/Westlind). None Opposed. Approved.

Amended Motion: To forward the comments on the Alaska Statewide Long Range Transportation Plan with the inclusion of a discussion about military construction impacts and to include, in the discussion about new construction, the percent growth rate as opposed to the volume of growth rate. None opposed. Approved.

Motion: To approve the 2015 – 2018 Transportation Improvement Program Administrative Modification #5 as presented. (Fox/Westlind). None opposed. Approved.

Mayor Bryce Ward
Chair, Policy Committee

FMATS 2015 – 2018 TRANSPORTATION IMPROVEMENT PROGRAM (TIP) ADMINISTRATIVE MODIFICATION #5

This is Administrative Modification #5 of the 2015 – 2018 Fairbanks Metropolitan Area Transportation System (FMATS) TIP. This TIP modification was developed to modify the funding on several projects so that they may be initiated in FFY17. These projects include the following: FMATS Sign Replacement, North Pole Streetlight Standardization, Airport Way Beautification, Transit Buses, Lathrop Street Extension and the FMATS Intersection Improvement Program. Funding modifications include increases on three projects that were in construction late in FFY16: Gold Hill Road Bicycle and Pedestrian Facility, FMATS Improvement Program and FMATS Pedestrian Improvements Stage I. Banked funds were added from FFY16 to FFY17 for the Birch Hill Bicycle and Pedestrian Facility project as well as the Old Richardson Highway Intersection Improvement project with the approval of DOT&PF. Both these projects should obligate in the first quarter of FFY17. A complete list of all changes can be found on the FMATS website at www.fmats.us.

Administrative Modification #5 was reviewed at the October 5 Technical Committee meeting and approved by the Policy Committee on October 19, 2016. The TIP continues to be fiscally constrained. A conformity determination is not required for Administrative Modifications.

This TIP Administrative Modification was developed in conformance with 23 USC 134, 49 USC 5303, 23 CFR Part 450, sections 174 and 176 (c) and (d) of the Clean Air Act as amended (42 USC 7504, 7506 (c) and (d)), 40 CFR Part 93, Title VI of the Civil Rights Act as amended (42 2000d-1) and 49 CFR Part 21, 49 USC 5332, Section 1101(b) of the SAFETEA-LU (Pub. L 109-59 and 49 CFR part 26, 23 CFR part 230, provisions of the Americans with Disabilities Act of 1990 (42 USC 12101 *et seq.,*) 49 CFR parts 27, 37, and 38, the Older Americans Act as amended (42 USC 6101), 23 USC 324, Section 504 of the Rehabilitation Act of 1973 (29 USC 794) and 49 CFR 27 and all other applicable federal requirements for Metropolitan Planning Organizations.

ACRONMYMS AND DEFINITIONS

General Definitions

AC – Advance Construction

BANK - Banking

AMATS – Anchorage Metropolitan Area Transportation Solutions

CMs – Contingency Measures

EPA – Environmental Protection Agency

FHWA – Federal Highway Administration

FMATS – Fairbanks Metropolitan Area Transportation System

FTA – Federal Transit Administration

MAP-21- Moving Ahead for Progress in the 21st Century

MPO – Metropolitan Planning Organization

M & O - Maintenance and Operations

PPP - Public Participation Plan

SAFETEA-LU – Safe, Accountable, Flexible, Efficient Transportation Equity Act – Legacy for Users

SIP – State Implementation Plan

TCMs – Transportation Control Measures

TIP – 2015 - 2018 Transportation Improvement Program

SURFACE TRANSPORTATION FUNDING SOURCES

381 – Funds made available in FY07 under SB381. When used as matching funds to federal funds, the code M381 is used. CH82/06/120/18, AR60685

3PF (Third Party Funds) – Funding contributed by parties other than the State usually to provide required matching funds.

AC (Advance Construction) – An innovative financing tool permitted under FHWA rules that, with approval of the FHWA, allows the state to begin a project using state funds prior to the availability of federal funds. This tool allows the state flexibility to use its resources to more efficiently schedule project start-ups.

ACC (Advance Construction Conversion) – Accounting tool to track the repayment of state funds used to begin a project prior to the availability of federal funds.

Bank – Funds that were banked from one year to the next under agreement with ADOT&PF.

CMAQ (Congestion Mitigation/Air Quality) – These funds are for projects that can be proven to reduce traffic congestion and/or improve air quality in federally designated non-attainment areas. Projects such as park and ride lots, transit bus replacement, vehicle inspection and maintenance program improvements, signal coordination, ride sharing, and paving for dust control qualify for these funds. The federal funds ratio varies and is either 90.97% or 100% depending upon the specific category of work.

DEOB/Offset – Federal funding, including the non-federal share, that has been de-obligated from another federal project and is now available for use on another project. This funding is shown as informational only and only after it has been approved by the proper authority for changes and overruns during construction or to bring a project up to low bid, as requested, prior to the submittal of a PDA request.

Earmark – Funds designated for a specific project. Certain earmarks have been made available for repurposing under the Consolidated Appropriations Act of 2016. FMATS has received authority to repurpose this particular earmark on the Noble Street Upgrade project.

EAR-M - The non-federal share required for Earmark funding.

FCTP – Flexible funding that may be used by the state and localities for projects on any Federal-aid highway, including the NHS, bridge projects on any public road, transit capital projects, bus terminals and facilities. Unlike other states, Alaska is allowed to use these funds on any public road in Alaska, regardless of classification. The federal funds ratio varies, typically 93.4% if spent on interstate routes or 90.97% otherwise. This funding code includes the non-federal share.

FED-CTP – Flexible funding that may be used by the state and localities for projects on any Federal-aid highway, including the NHS, bridge projects on any public road, transit capital projects, bus terminals and facilities. Unlike other states, Alaska is allowed to use these funds on any public road in Alaska, regardless of classification. The federal funds ratio varies, typically 93.4% if spent on interstate routes or 90.97% otherwise. This funding code reflects the federal share only.

GF – General fund appropriation available for use on any project.

GO Bonds – Funds generated by the sale of bonds by the state.

GO-P – Funds generated by the sale of bonds by the state for the Plack Road Bike/Pedestrian Facility Project.

GO-W – Funds generated by the sale of bonds by the state for the Wendell Avenue Bridge project.

ILLU (Illustrative) – Indicates projects that would be funded and advanced if funding becomes available either through receipt of additional funds or because another project cannot be advanced; the specific source or sources of funds will be determined when and if the project is selected to be funded.

ILLU-SM – Indicates projects that are illustrative and have a state match.

ILLU-3PF - Indicates projects that are illustrative and match is paid by third party funds.

NHPP (National Highway Performance Program) – In MAP-21section 1106, Congress designated the NHPP to provide support for the condition and performance of the National Highway System (NHS), for the construction of new facilities on the NHS, and to ensure that investments of Federal-aid funds in highway construction are directed to support progress toward the achievement of performance targets established in a State's asset management plan for the NHS. This funding code incorporates previous NHS, IM and some BR fund codes. The federal funds ratio is 90.97%.

NP – Funds made available to the FMATS Coordinator's office from the City of North Pole.

PL – These funds are designated for the mandatory planning tasks the department undertakes, including preparation of the Statewide Transportation Plan (SwTP) and State Transportation Improvement Program (STIP), statistical measurements of the transportation system (traffic volumes, pavement condition, accident locations, causes and severity, and physical characteristics of roads and highways), mapping, and management systems. In Alaska, these metropolitan planning funds can be used in any urban area within the state. Planning processes and special planning studies are eligible activities within this program. The federal funds ratio is 90.97%.

SB46 – A FY12 state fund appropriation of \$5 million available to any project in the FMATS TIP. When used as matching funds to federal funds, the code M46 is used. CH5/11/100/8, AR65818.

SB160 – A FY13 state fund appropriation of \$7.5 million available to any project in the FMATS TIP. When used as matching funds to federal funds, the code M160 is used. CH17/12/132/25, AR58609.

SB230 – A FY11 state fund appropriation of \$5 million available to any project in the FMATS TIP. When used as matching funds to federal funds, the code M230 is used. CH43/10/36/24, AR65439

SM (State Match) – The State's share of project costs required to match federal program funds. Depending on the particular federal program requirements, the state's share of the costs, the state match required, will vary from as little as zero percent to as much as 50%. Most often the state's share will range from 9.03% to 20%.

STP (Surface Transportation Program) – Flexible funding that may be used by the state and localities for projects on any Federal-aid highway, including the NHS, bridge projects on any public road, transit capital projects, bus terminals and facilities. Unlike other states, Alaska is allowed to use these funds on any public road in Alaska, regardless of classification. The federal funds ratio varies, typically 93.4% if spent on interstate routes or 90.97% otherwise.

TAP (Transportation Alternatives Program) – The Moving Ahead for Progress in the 21st Century Act (MAP-21) replaced the Transportation Enhancement (TE) Activities with the Transportation Alternatives Program (TA), a new program, with funding derived from the NHPP, STP, HSIP, CMAQ and Metropolitan Planning programs, encompassing most activities funded under the Transportation Enhancements, Recreational Trails, and Safe Routes to School programs under SAFETEA-LU. The federal funds ratio can be 80% or 90.97%.

SM – **(State Match)** – The State's share of project costs required to match federal program funds. Depending on the particular federal program requirements, the state's share of the costs, the state match required, will vary from as little as zero percent to as much as 50%. Most often the state's share will range from 9.03% to 20%.

UAF – Funds available through the University of Alaska.

URPL (**Metropolitan Planning**) – In Alaska, these funds can be used in any urban area within the state. Planning processes and special planning studies are eligible activities within this program. The federal funds ratio is 90.97%.

Y381 – Specific appropriation for the Yankovich/Miller Hill Multi-Use Path.

Transit and Rail Fund Codes

5307 (Capital and Operating Funds for Urbanized Areas) – These funds are distributed to eligible urban areas according to a federally mandated formula based on population, population density, and level of public transportation service. The eligible transit operations in Alaska for this program are in Anchorage and Fairbanks. Urban areas with populations over 200,000 (Anchorage) receive funds directly from FTA and may use their funds for capital investments. Urban areas with populations under 200,000 (Fairbanks) may use the funds for both operations and capital projects. In each case the project selections are made by the MPO and are listed in its TIP.

5307RR - **FTA** (Alaska Railroad Passenger Operations) — A portion of Section 5307 funds, Capital and Operating Funds for Urbanized Areas specifically set aside for the Alaska Railroad for costs related to passenger operations.

5309 - FTA (Capital Program) - This program provides capital assistance for three primary activities:

- (5309BU) New and replacement buses and facilities
- (5309FG) Modernization of existing rail and ferry systems
- (5309NS) (New Starts) New fixed-guideway systems (including ferry systems)

5311 (Non-urbanized Area Formula Program) – This program provides funding to enhance public transportation in rural and small urban areas. It also assists in the maintenance, development, improvement, and use of public transportation systems. A component of this program is the Rural Transit Assistance Program (RTAP), which provides training and technical assistance to transit operators. The federal funds ratio is 90.97% for capital projects and project administration, and up to 56.86% for operating assistance. RTAP projects are 100% federally funded.

5337GR (Section 5337 State of Good Repair) – A new formula-based State of Good Repair program is FTA's first stand-alone initiative written into law that is dedicated to repairing and upgrading the nation's rail transit systems along with high-intensity motor bus systems that use high-occupancy vehicle lanes, including bus rapid transit (BRT). These funds reflect a commitment to ensuring that public transit operates safely, efficiently, reliably, and sustainably so that communities can offer balanced transportation choices that help to improve mobility, reduce congestion, and encourage economic development.

5339 – (Bus and Bus Facilities) – Funding for capital expenses for eligible rural public transit systems.

AARC - Funds available through the Alaska Railroad Corporation.

DOD – Funds available through the Department of Defense.
